

CONTENTS

Introduction	VII
0 - Terminology and Notation	1
1 - Recursive Functions	3
2 - Isomorphisms	8
3 - Algorithms	12
4 - Relative Recursiveness	15
5 - Recursive Enumerability	20
6 - Degrees	26
7 - Evaluating Degrees	31
8 - Incomparable Degrees	39
9 - Upper and Lower Bounds	43
10 - The Jump Operation	46
11 - Minimal Degrees	49
12 - Simple Sets	57
13 - The Priority Method	60
14 - The Splitting Theorem	66
15 - Maximal Sets	72
16 - Infinite Injury	83
17 - Index Sets	93
18 - Branching Degrees	99
