

# TABLE OF CONTENTS

## CHAPTER I

TYPES OF LATTICES . . . . .	1
-----------------------------	---

## CHAPTER II

POSTULATES FOR LATTICES . . . . .	20
-----------------------------------	----

## CHAPTER III

STRUCTURE AND REPRESENTATION THEORY . . . . .	55
---	----

## CHAPTER IV

GEOMETRIC LATTICES . . . . .	80
------------------------------	----

## CHAPTER V

COMPLETE LATTICES . . . . .	111
-----------------------------	-----

## CHAPTER VI

UNIVERSAL ALGEBRA . . . . .	132
-----------------------------	-----

## CHAPTER VII

APPLICATIONS TO ALGEBRA . . . . .	159
-----------------------------------	-----

## CHAPTER VIII

TRANSFINITE INDUCTION . . . . .	180
---------------------------------	-----

## CHAPTER IX

APPLICATIONS TO GENERAL TOPOLOGY . . . . .	211
--	-----

## CHAPTER X

METRIC AND TOPOLOGICAL LATTICES . . . . .	230
---	-----

## CHAPTER XI

BOREL ALGEBRAS AND VON NEUMANN LATTICES . . . . .	254
---	-----

## CHAPTER XII

APPLICATIONS TO LOGIC AND PROBABILITY . . . . .	277
---	-----

## CHAPTER XIII

LATTICE-ORDERED GROUPS . . . . .	287
----------------------------------	-----

## CHAPTER XIV

LATTICE-ORDERED MONOIDS . . . . .	319
-----------------------------------	-----

## CHAPTER XV

VECTOR LATTICES . . . . .	347
---------------------------	-----

## CHAPTER XVI

POSITIVE LINEAR OPERATORS . . . . .	380
-------------------------------------	-----

## CHAPTER XVII

LATTICE-ORDERED RINGS . . . . .	397
---------------------------------	-----

BIBLIOGRAPHY . . . . .	411
------------------------	-----

INDEX . . . . .	415
-----------------	-----
