

TABLE OF CONTENTS

<u>PREFACE</u>	p. 0.5.
<u>CHAPTER 1</u> General definitions.....	p. 1.1. - 1.8.
§ 1.1 Graphs and hypergraphs.....	p. 1.1.
§ 1.2 Examples of graphs.....	p. 1.4.
§ 1.3 Connectivity in graphs.....	p. 1.5.
§ 1.4 Splittings and contractions.....	p. 1.6.
§ 1.5 Colourings.....	p. 1.7.
<u>CHAPTER 2</u> Critical graphs.....	p. 2.1. - 2.8.
§ 2.1 Definitions of v- and e-critical graphs...	p. 2.2.
§ 2.2 Connectivity of v- and e-critical graphs..	p. 2.3.
§ 2.3 On the possible number of vertices and edges of v- and e-critical graphs.....	p. 2.4.
§ 2.4 Constructions of v- and e-critical graphs.	p. 2.6.
§ 2.5 c-critical graphs.....	p. 2.7.
§ 2.6 Critical hypergraphs.....	p. 2.8.
<u>CHAPTER 3</u> Small cutsets of vertices in the complements of critical graphs....	p. 3.1. - 3.37.
§ 3.1 Preliminary results.....	p. 3.1.
§ 3.2 v-critical graphs with complements having cutsets containing ≤ 2 vertices.....	p. 3.5.
§ 3.3 e-critical graphs with complements having cutsets containing ≤ 2 vertices.....	p.3.15.
§ 3.4 On the complements of c-critical graphs...	p.3.32.
<u>CHAPTER 4</u> Separating sets of edges in critical graphs.....	p. 4.1. - 4.37.
§ 4.1 Remarks on minimal separating sets of edges in connected graphs.....	p. 4.2.

§ 4.2	The main theorem.....	p. 4.3.
§ 4.3	v- and e-critical k-chromatic graphs having separating sets of k - 1 edges.....	p.4.14.
§ 4.4	On separating sets of edges in e-critical graphs.....	p.4.18.
<u>CHAPTER 5</u>	Critical hypergraphs.....	p. 5.1. - 5.26.
§ 5.1	On separating sets of edges in critical hypergraphs.....	p. 5.1.
§ 5.2	Constructions of critical hypergraphs....	p. 5.3.
§ 5.3	On proper splittings of vertices in e-critical graphs.....	p. 5.7.
§ 5.4	Critical hypergraphs and e-critical graphs.....	p.5.18.
§ 5.5	Some examples of critical hypergraphs....	p.5.20.
§ 5.6	Constructions of e-critical graphs.....	p.5.21.
<u>CHAPTER 6</u>	On the maximal number of edges, the maximal number of independent vertices and the minimal valency of e-critical graphs.....	p. 6.1. - 6.21.
§ 6.1	The theorems.....	p. 6.3.
§ 6.2	Proofs of Theorems 6.1 and 6.2.....	p. 6.5.
§ 6.3	The first operation.....	p.6.10.
§ 6.4	The second operation.....	p.6.13.
§ 6.5	Proof of Theorem 6.3.....	p.6.16.
§ 6.6	Proof of Theorem 6.4.....	p.6.18.
<u>FIGURES</u>		p. 7.1. - 7.8.
<u>CONCLUDING REMARKS</u>		p. 7.9.
<u>REFERENCES</u>		p. 7.10. - 7.13.

The total number of pages in the thesis (including the title-page) is 156.
