

TABLE OF CONTENTS

ACKNOWLEDGEMENTS.....	111
I. DEFINITIONS AND EXAMPLES.....	1
1.1. Introduction.....	1
1.2. Examples.....	9
1.3. The Center of an Orthologic.....	24
II. DACEY SUMS AND J-PRODUCTS.....	32
2.1. Dacey Sums and Compatible Ortho- partitions.....	32
2.2. J-Products.....	52
2.3. The Relationship Between Sums and Products.....	65
2.4. Commutivity in the J-Product.....	76
III. HORIZONTAL SUMS AND CARTESIAN PRODUCTS.....	88
3.1. Cartesian Products of Orthologics.....	88
3.2. Horizontal Sums.....	93
IV. DECOMPOSABILITY.....	99
4.1. Decomposable Orthologics.....	100
4.2. The Decomposition of a Sample Space.....	108
4.3. The Relationship Between Sample Space and Orthologic Decomposability.....	112
V. CONCLUDING REMARKS.....	126
5.1. An Orthologic as a Model.....	126
5.2. Embedding an Orthologic in a Boolean Algebra.....	130

5.3. A Theorem from Quantum Logic..... 131
5.4. Some Properties of the J-Product..... 132
APPENDIX..... 133
BIBLIOGRAPHY..... 160
