
CONTENTS

1	SETS, SEQUENCES AND FUNCTIONS	1
1.1	Some Special Sets	1
1.2	Set Operations	9
1.3	Functions	19
1.4	Inverses of Functions	29
1.5	Sequences	36
1.6	Big-Oh Notation	44
2	ELEMENTARY LOGIC	55
2.1	Informal Introduction	55
2.2	Propositional Calculus	66
2.3	Methods of Proof	77
2.4	More Propositional Calculus	83
2.5	Analysis of Arguments	95
3	RELATIONS	107
3.1	Relations	107
3.2	Digraphs and Graphs	113
3.3	Matrices	123
3.4	Multiplication of Matrices	133
3.5	Equivalence Relations and Partitions	142
3.6	The Division Algorithm and $\mathbb{Z}(p)$	152

4	INDUCTION AND RECURSION	164
4.1	Loop Invariants	164
4.2	Mathematical Induction	178
4.3	Recursive Definitions	188
4.4	Recurrence Relations	198
4.5	More Induction	207
4.6	The Euclidean Algorithm	213
5	COUNTING	226
5.1	Basic Counting Techniques	226
5.2	Elementary Probability	235
5.3	Inclusion–Exclusion Principle and Binomial Methods	245
5.4	Counting and Partitions	254
5.5	Pigeon-Hole Principle	263
6	INTRODUCTION TO GRAPHS AND TREES	275
6.1	Graphs	275
6.2	Edge Traversal Problems	286
6.3	Trees	296
6.4	Rooted Trees	303
6.5	Vertex Traversal Problems	313
6.6	Minimum Spanning	321
7	RECURSION, TREES AND ALGORITHMS	335
7.1	General Recursion	335
7.2	Recursive Algorithms	347
7.3	Depth-First Search Algorithms	358
7.4	Polish Notation	375
7.5	Weighted Trees	383

8	DIGRAPHS	399
8.1	Digraphs	399
8.2	Weighted Digraphs	409
8.3	Digraph Algorithms	420
8.4	Modifications and Applications of the Algorithms	431
9	PROBABILITY	439
9.1	Independence	439
9.2	Random Variables	451
9.3	Expectation and Standard Deviation	462
9.4	Binomial and Related Distributions	474
10	BOOLEAN ALGEBRA	488
10.1	Boolean Algebras	488
10.2	Boolean Expressions	500
10.3	Logic Networks	509
10.4	Karnaugh Maps	519
11	MORE RELATIONS	529
11.1	Partially Ordered Sets	529
11.2	Special Orderings	542
11.3	Properties of General Relations	552
11.4	Closures of Relations	563
12	ALGEBRAIC STRUCTURES	573
12.1	Permutations	573
12.2	Groups Acting on Sets	583
12.3	Groups Acting on Sets, Part 2	591
12.4	Applications to Coloring Problems	600
12.5	Groups	611
12.6	The Fundamental Homomorphism Theorem	623
12.7	Semigroups	633
12.8	Other Algebraic Systems	643

13	PREDICATE CALCULUS AND INFINITE SETS	658
13.1	Quantifiers	658
13.2	Elementary Predicate Calculus	665
13.3	Infinite Sets	674
	 DICTIONARY	 685
	 ANSWERS AND HINTS	 688
	 INDEX	 747
