Contents

Preface *ix*

To the Student *xiii*

CHAPTER ONE **NATURAL NUMBERS** **1**

1.1 *Sets and Subsets* *1*
1.2 *The Set of Natural Numbers* *2*
1.3 *Formulas and Other Algebraic Expressions* *5*
1.4 *Equality* *12*
1.5 *Axioms for Addition and Multiplication* *15*
1.6 *Exponents* *22*
1.7 *An Axiom Involving Multiplication and Addition* *26*
1.8 *Combining Like Terms* *31*
1.9 *Inequality Symbols* *35*
1.10 *Line Graphs* *40*
Chapter Review *43*

CHAPTER TWO **INTEGERS** 46

2.1 *The Set of Integers* 46
2.2 *The Negative and Absolute Value of a Number* 51
2.3 *Addition of Integers* 55
2.4 *Subtraction of Integers* 60
2.5 *Multiplication of Integers* 65
2.6 *Division of Integers* 71
2.7 *Simplifying Algebraic Expressions* 76
2.8 *Equations* 82
2.9 *Applications* 86
2.10 *Inequalities and Line Graphs* 93
Chapter Review 96

CHAPTER THREE **RATIONAL AND REAL NUMBERS** 99

3.1 *The Set of Rational Numbers* 99
3.2 *Multiplication and Fundamental Properties* 101
3.3 *Division* 106
3.4 *Addition and Subtraction* 111
3.5 *Equations and Applications* 115
3.6 *Ratio and Proportion* 119
3.7 *Real Numbers and Line Graphs* 123
Chapter Review 129

CHAPTER FOUR **POLYNOMIALS** 131

4.1 *Polynomials in One or More Variables* 131
4.2 *Addition, Subtraction, and Multiplication* 132
4.3 *Special Products of the Form* $(ax + b)(cx + d)$ 135
4.4 *Factoring Second-Degree Polynomials* 138
4.5 *More Factoring* 143
4.6 *Reducing to Lowest Terms* 145
4.7 *Algebraic Long Division* 147
Chapter Review 150

CHAPTER FIVE **FIRST-DEGREE EQUATIONS AND INEQUALITIES IN ONE VARIABLE** 152

5.1 *First-Degree Equations in One Variable* 152
5.2 *Applications* 153
5.3 *First-Degree Inequalities in One Variable* 161
5.4 *Applications* 165
5.5 *Cartesian Coordinate Systems* 168
5.6 *First-Degree Equations and Straight Lines* 173
5.7 *Systems of Linear Equations* 180
5.8 *Applications* 188
Chapter Review 192

CHAPTER SIX **ALGEBRAIC FRACTIONS** **195**

6.1 *Rational Expressions* 195
6.2 *Multiplication and Division* 196
6.3 *Addition and Subtraction* 199
6.4 *Fractional Equations* 201
6.5 *Applications* 203
6.6 *Formulas and Equations with Several Variables* 208
Chapter Review 210

CHAPTER SEVEN **EXPONENTS AND RADICALS** **212**

7.1 *Laws for Natural Number Exponents* 212
7.2 *Integer Exponents* 217
7.3 *Power-of-Ten Notation and Applications* 222
7.4 *Square Roots and Radicals* 226
7.5 *Sums and Differences of Radicals* 231
7.6 *Products and Quotients Involving Radicals* 233
Chapter Review 236

CHAPTER EIGHT **QUADRATIC EQUATIONS** **238**

8.1 *Introductory Remarks* 238
8.2 *Solution by Factoring* 240
8.3 *Solution by Square Root* 242
8.4 *Solution by Completing the Square* 245
8.5 *The Quadratic Formula* 248
8.6 *Which Method?* 251
8.7 *Applications* 252
Chapter Review 257

Appendix 259

Index 281
