

CONTENTS

	<u>Page</u>
Foreword	vii
Preface	ix
On the Characteristic Roots of Non-negative Matrices, ALFRED BRAUER, University of North Carolina, Chapel Hill, North Carolina	3
Localization of the Characteristic Roots of Matrices, A. S. HOUSEHOLDER, Oak Ridge National Laboratory, Oak Ridge, Tennessee	39
The Use of Multilinear Algebra for Proving Matrix Inequalities, MARVIN MARCUS, University of California, Santa Barbara, California	61
Positive Matrices and Functional Analysis, A. M. OSTROWSKI, University of Basel, Basel, Switzerland	81
Matrices of Zeros and Ones in Combinatorial Mathematics, H. J. RYSER, Syracuse University, Syracuse, New York	103
On the Variation of the Characteristic Roots of a Finite Matrix Under Various Changes of its Elements, OLGA TAUSSKY, California Institute of Technology, Pasadena, California.	125
Index	139
