

CONTENTS

PART I: TOEPLITZ FORMS

1. Preliminaries	3
2. Orthogonal Polynomials. Algebraic Properties	37
3. Orthogonal Polynomials. Limit Properties	44
4. The Trigonometric Moment Problem	56
5. Eigenvalues of Toeplitz Forms	62
6. Generalizations and Analogs of Toeplitz Forms	81
7. Further Generalizations	97
8. Certain Matrices and Integral Equations of the Toeplitz Type	122

PART II: APPLICATIONS OF TOEPLITZ FORMS

9. Applications to Analytic Functions	145
10. Applications to Probability Theory	164
11. Applications to Statistics	204
<i>Appendix: Notes and References</i>	229
<i>Bibliography</i>	239
<i>Index</i>	243
