

# TABLE OF CONTENTS

INTRODUCTION . . . . .	1
CHAPTER I. Some Properties of Polynomials Orthogonal on the Unit Circle . . . . .	5
CHAPTER II. The Properties of the Function $\pi(z)$ . . . . .	19
CHAPTER III. Estimates on the Entire Unit Circle . . . . .	29
CHAPTER IV. Local Estimates . . . . .	47
CHAPTER V. Asymptotic Formulas and Limit Relations . . . . .	75
CHAPTER VI. Orthogonal Series . . . . .	105
CHAPTER VII. The Convergence of the Fourier-Chebyshev Expansion . . . . .	119
CHAPTER VIII. Parametric Description of Orthogonal Sets . . . . .	155
CHAPTER IX. Polynomials Orthogonal on a Finite Interval of the Real Axis . . . . .	169
TABLES . . . . .	195
Notation in the Tables . . . . .	195
TABLE I. Estimates of $\delta_n^*$ . . . . .	197
TABLE II. Estimates for Orthonormal Polynomials on the Entire Circumference . . . . .	198
TABLE III. Local Estimates for Orthonormal Polynomials in the Interior of an Arc . . . . .	200

## TABLE OF CONTENTS

TABLE IV. Limit Relation on the Entire Circumference .	201
TABLE V. Local Limit Relation in the Interior of an Arc . . . . .	201
TABLE VI. Convergence of the Fourier-Chebyshev Expansion on the Circumference . . . . .	204
TABLE VII. Convergence of the Fourier-Chebyshev Expansion on an Arc . . . . .	205
TABLE VIII. Conditions for Uniform Equiconvergence of of Fourier-Chebyshev and Maclaurin Expansions in in the Interior of an Arc . . . . .	208
TABLE IX. Convergence of the Fourier-Chebyshev Expansion on an Interval . . . . .	211
NOTES . . . . .	215
BIBLIOGRAPHY . . . . .	237
