

<b>1</b>	<b>Conditional Expectations</b>	<b>1</b>
	Introduction . . . . .	1
	Definition and First Properties . . . . .	1
	Conditional Expectations and Conditional Laws . . . . .	4
	Exercises . . . . .	5
	Solutions . . . . .	7
<b>2</b>	<b>Stochastic Processes</b>	<b>15</b>
	General Facts . . . . .	15
	Stopping Times . . . . .	17
	Exercises . . . . .	18
	Solutions . . . . .	19
<b>3</b>	<b>Martingales</b>	<b>23</b>
	First Definitions . . . . .	23
	First Properties . . . . .	24
	The Stopping Theorem . . . . .	24
	Maximal Inequalities . . . . .	25
	Square Integrable Martingales . . . . .	27
	Convergence Theorems . . . . .	28
	Regular Martingales . . . . .	30
	Exercises . . . . .	30
	Problems . . . . .	39
	Solutions . . . . .	44
<b>4</b>	<b>Markov Chains</b>	<b>73</b>
	Transition Matrices, Markov Chains . . . . .	73
	Construction and Existence . . . . .	76
	Computations on the Canonical Chain . . . . .	77
	Potential Operators . . . . .	78
	Passage Problems . . . . .	79
	Recurrence, Transience . . . . .	81
	Recurrent Irreducible Chains . . . . .	84
	Periodicity . . . . .	89

Exercises . . . . .	91
Problems . . . . .	107
Solutions . . . . .	121
