

## Contents

Introduction	.....	2
Preliminaries	.....	3
Chapter one.	Grothendieck spaces .....	7
	Definition, Characterization in the real case .....	7
	Tensor product representation .....	11
	Characterization by invariance properties .....	16
	Weierstrass-Stone and Kakutani-Stone theorems .....	23
Chapter two.	A selection theorem .....	33
Chapter three.	Best approximation by Grothendieck spaces .....	45
	Best approximation and selection .....	46
	Best approximation by Grothendieck spaces .....	67
	Best approximation by Weierstrass-Stone and Kakutani-Stone spaces .....	83
	The problem of best approximation by the canonical image of a Banach space in its second dual .....	95
Appendix.	Compactness, infima of functions and the existence of best approximations .....	98
Bibliography	.....	114

---

A part of this paper was presented to the American Mathematical Society on January 21, 1971 under the title "Approximation and Selection".

Received by the Editors November 1, 1971.
