

Table of Contents

Chapter I: Local Theory

§1.	Convergence Lemmas.....	1
§2.	Induced Representations.....	8
§3.	Reduction to the Absolutely Cuspidal Case...	29
§4.	Division Algebras (Local Theory).....	48
§5.	Absolutely Cuspidal Representations.....	56
§6.	Example: Spherical Functions.....	73
§7.	Example: Special Representation.....	83
§8.	Archimedean Case.....	106
§9.	Unitary Representations.....	122

Chapter II: Global Theory

§10.	Automorphic Forms.....	136
§11.	Convergence Lemmas (Global Theory).....	152
§12.	The Zeta Integral of a Cusp Form.....	163
§13.	The Main Theorem.....	176
Bibliography.....		185
