

CONTENTS

CHAPTER 1. FUNCTIONS OF REGULAR VARIATION

1.1	Introduction.	1
1.2	Fundamental Theorems.	2
1.3	Refinement of Definition of Regular Variation. Characterization of Regular Variation.	7
1.4	The Structure of Slowly Varying Functions and Alternative Proofs.	13
1.5	Further Properties of Regularly Varying Functions.	17
1.6	Conjugate and Complementary Regularly Varying Functions.	25
1.7	The Definition of a Regularly Varying Function.	29
1.8	Monotone Regular Variation.	37
1.9	Bibliographic Notes and Discussion.	43
	Exercises to Chapter 1.	47

CHAPTER 2. SOME SECONDARY THEORY OF REGULARLY VARYING FUNCTIONS

2.1	Necessary and Sufficient Integral Conditions for Regular Variation.	53
2.2	Tauberian Theorems Involving Regular Variation.	59
2.3	A Class of Integrals Involving Regularly Varying Functions.	63
2.4	A Class of Functions Related to Regularly Varying Functions.	69
2.5	Bibliographic Notes and Discussion.	85
	Exercises to Chapter 2.	86

APPENDIX. GENERALIZATIONS OF REGULAR VARIATION

A.1	R-O Varying Functions.	92
A.2	S-O Varying Functions.	97
A.3	Monotonicity; Dominated Variation.	99
A.4	Bibliographic Notes and Discussion.	104
