

CONTENTS

| | | |
|----|---|-----|
| 0. | Introduction | 1 |
| 1. | Preliminaries | 5 |
| 2. | The Hessian Comparison Theorem | 19 |
| | Theorem A | 19 |
| 3. | Sub-mean-value Theorem for Subharmonic Functions | 43 |
| | Theorem B | 43 |
| 4. | Quasi-isometry of the Exponential Map and the Absence of Positive Harmonic Functions | 56 |
| | Theorem C | 56 |
| | Theorem D | 57 |
| 5. | New Criterion of Hyperbolicity | 81 |
| | Theorem E | 83 |
| | Appendix | 94 |
| 6. | Bounded Exhaustion Functions and a New Class of Hyperbolic Kähler Manifolds | 99 |
| | Theorem F | 99 |
| | Theorem G | 111 |
| 7. | A Digression | 116 |
| | Appendix | 136 |
| 8. | The Bergman Metric | 141 |
| | Theorem H | 144 |
| 9. | Manifolds Biholomorphic to \mathbb{C}^n | 180 |
| | Theorem J | 180 |
| | Bibliography | 206 |
| | Index | 211 |
| | Index of Special Notations | 214 |
