

C O N T E N T S

J. D. STASHEFF	Families of finite H-complexes - Revisited.....	1
G. MISLIN	H-Spaces mod p (I).....	5
M. CURTIS	H-Spaces mod p (II).....	11
H. TODA	Mod p decomposition of Lie groups.....	20
A. ZABRODSKY	On spherical classes in the co-homology of H-Spaces	25
J. ROITBERG	On the homotopy classification of rank 3-H-spaces..	34
F. SIGRIST	H-maps between spheres.....	39
C. R. CURJEL- R. R. DOUGLAS	On H-spaces of finite dimension.....	42
J. D. STASHEFF	Infinite loop spaces - an historical survey.....	43
J. BECK	Classifying spaces for homotopy-everything H- Spaces.....	54
G. PORTER	The universal H-space of a monoid.....	63
A. CLARK	Categorical constructions in algebraic topology....	68
S. ARAKI	On a type of differential Hopf algebras.....	74
N. E. STEENROD	Polynomial algebras over the algebra of cohomology operations.....	85
P. J. HILTON - J. ROITBERG	On quasi-fibrations and orthogonal bundles.....	100
E. THOMAS	Some remarks on vector fields.....	107
J. M. LEMAIRE	A finite complex whose rational homotopy is not finitely generated.....	114
	Reference list of talks given at the Conference but not included in this volume.....	121
J. D. STASHEFF	H-space problems.....	122
I. M. JAMES	Bibliography on H-spaces.....	137
