

CONTENTS

I.	INTRODUCTION . . . . .	1
	A. Difference Sets . . . . .	1
	B. Shifts, Equivalence Complements . . . . .	2
	C. Block Designs, Incidence Matrices. The Incidence Equation . . . . .	4
	D. The Characteristic Function and its Autocorrelation Function . . . . .	6
	E. Multipliers . . . . .	7
	F. The Hall-polynomial, w-multipliers . . . . .	8
	G. Group Difference Sets . . . . .	9
II.	EXISTENCE QUESTIONS . . . . .	11
	A. The Main Existence Problems . . . . .	11
	B. The Bruck-Ryser-Chowla Theorem . . . . .	12
	C. Integral Solutions to the Incidence Equation . . . . .	18
	D. The Theorem of Hall and Ryser. . . . .	24
	E. Results of Mann, Rankin, Turyn and Yamamoto . . . . .	26
III.	MULTIPLIERS AND CONSTRUCTIVE EXISTENCE TESTS . . . . .	54
	A. Multiplier Theorems. . . . .	54
	B. Difference Sets Fixed by a Multiplier . . . . .	60
	C. Multipliers and Diophantine Equations . . . . .	62
	D. Polynomial Congruences . . . . .	65
IV.	DIFFERENCE SETS OF SPECIAL TYPE . . . . .	77
	A. Planar Difference Sets . . . . .	77
	B. Hadamard Difference Sets. . . . .	90
	C. Barker Sequences. Circulant Hadamard Matrices. . . . .	96
V.	FAMILIES OF DIFFERENCE SETS . . . . .	99
	A. Singer Sets and Their Generalizations. The Results of Gordon, Mills and Welch. . . . .	99
	B. $N^{\text{th}}$ Power Residue Difference Sets and Cyclotomy . . . . .	119

V.	FAMILIES OF DIFFERENCE SETS (continued)	
	C. More Cyclotomic Difference Sets . . . . .	127
	D. Generalized Cyclotomy and Difference Sets . . . . .	131
VI.	MISCELLANY . . . . .	143
	A. Multiple Inequivalent Difference Sets . . . . .	143
	B. Searches . . . . .	144
	C. Some Examples . . . . .	146
	D. A Table of Difference Sets . . . . .	148
	REFERENCES . . . . .	159
