*Preface*

v

**CHAPTER 1 Fundamental Concepts and Formulas in Riemannian Geometry 1**

1. Riemannian Manifolds	1
2. Covariant Differentiation	6
3. Curvature Tensor	11
4. Projective and Conformal Transformations	16
5. Lie Derivatives	21
6. Complete Riemannian Manifolds	26
Problems	29

**CHAPTER 2 Harmonic 1-Forms and Killing Vector Fields 38**

1. Integral Formulas	38
2. Harmonic 1-Forms	41
3. Killing Vector Fields	43
4. Affine Killing Vector Fields	44
5. Projective Killing Vector Fields	45
6. Conformal Killing Vector Fields	46
Problems	47

<b>CHAPTER 3</b>	<b>Riemannian Manifolds Admitting an Infinitesimal Conformal Transformation</b>	<b>49</b>
1.	Preliminaries	49
2.	Lemmas	51
3.	Integral Formulas	52
4.	Theorems on Riemannian Manifolds with Constant Scalar Curvature and Admitting an Infinitesimal Nonisometric Conformal Transformation	54
	Problems	60
<b>CHAPTER 4</b>	<b>Harmonic Forms and Killing Tensor Fields</b>	<b>63</b>
1.	Harmonic $p$ -Forms	63
2.	Killing Tensor Fields	68
3.	Curvature and Betti Numbers	70
4.	Curvature and Killing Tensor Fields	73
	Problems	75
<b>CHAPTER 5</b>	<b>Hypersurfaces of Riemannian Manifolds</b>	<b>78</b>
1.	Fundamental Formulas for Hypersurfaces of a Euclidean Space	78
2.	Integral Formulas for Hypersurfaces of a Euclidean Space	82
3.	Hypersurfaces of Riemannian Manifolds	87
4.	The Induced Connection	89
5.	Equations of Gauss and Weingarten	91
6.	Equations of Gauss and Codazzi	94
	Problems	97
<b>CHAPTER 6</b>	<b>Closed Hypersurfaces of a Riemannian Manifold with Constant Mean Curvature</b>	<b>100</b>
1.	Hypersurfaces of a Riemannian Manifold Admitting an Infinitesimal Conformal Transformation	100
2.	Integral Formulas	101
3.	Integral Formulas for the Case $M_1 = \text{const}$	104
4.	Hypersurfaces With Constant First Mean Curvature of a Riemannian Manifold Admitting an Infinitesimal Homothetic Transformation	105
5.	Integral Formulas in $M$ Admitting a Function $v$ Such That $\nabla \nabla v = f(v)g$	107
6.	Hypersurfaces with Constant First Mean Curvature	109
	Problems	112

<b>CHAPTER 7</b>	<b>Harmonic 1-Forms and Killing Vector Fields in Riemannian Manifolds with Boundary</b>	<b>113</b>
1.	Harmonic 1-Forms in Riemannian Manifolds with Boundary	113
2.	Killing Vector Fields in Riemannian Manifolds with Boundary	118
3.	Conformal Killing Vector Fields in Riemannian Manifolds with Boundary	120
	Problems	124
<b>CHAPTER 8</b>	<b>Harmonic Forms and Killing Tensor Fields in Riemannian Manifolds with Boundary</b>	<b>126</b>
1.	Tangential and Normal Components of a $p$ -form on the Boundary	126
2.	Harmonic $p$ -forms in Riemannian Manifolds with Boundary	129
3.	Nonexistence of Harmonic $p$ -forms	131
4.	Killing Forms in Riemannian Manifolds with Boundary	134
5.	Nonexistence of Killing $p$ -forms	136
	Problems	138
	<b>Bibliography</b>	<b>140</b>
	<i>Author Index</i>	151
	<i>Subject Index</i>	154
