

# TABLE OF CONTENTS

	Page
INTRODUCTION .....	1
CHAPTER I: EQUIMEASURABLE FUNCTIONS	
1. Spectral Measure .....	6
2. Spectral Equivalency .....	9
CHAPTER II: DECREASING REARRANGEMENTS OF MEASURABLE FUNCTIONS	
3. The Right Inverse of a Decreasing Function ....	24
4. Decreasing Rearrangement of Measurable Functions on Finite Measure Spaces .....	27
CHAPTER III: MEASURE PRESERVING TRANSFORMATIONS AND REARRANGEMENTS	
5. Rearrangements on Non-atomic Measure Spaces ...	41
6. A Theorem of Ryff .....	49
7. An Imbedding into a Non-atomic Measure Space ..	52
8. The Decreasing Rearrangements of Sums .....	55
CHAPTER IV: REARRANGEMENT INEQUALITIES	
9. An Integral Inequality of Hardy .....	57
10. A Preorder Relation .....	61
11. Inequalities with Alternating Signs .....	72
12. An Inequality of Hardy and Littlewood .....	77
13. The Values of an Integral .....	80
14. The Decreasing Rearrangement of a Product .....	88

CHAPTER V: REARRANGEMENT INVARIANT BANACH FUNCTION SPACES

15.	Banach Function Spaces .....	89
16.	Rearrangement Invariant Banach Function Spaces	94
17.	A Relation Between u.r.i. Spaces and u.r.i. Norms .....	106
18.	A Representation Theorem .....	111

CHAPTER VI: SOME EXTENSIONS OF A THEOREM OF HARDY, LITTLEWOOD AND PÓLYA

19.	A Theorem of Hardy, Littlewood and Pólya .....	115
20.	Schur Convex Functions .....	117
21.	The sets $\Omega_f^p$ and $\Delta_f^p$ .....	126
22.	Doubly Stochastic Operators .....	134

CHAPTER VII: SOME RECENT DEVELOPMENTS ON REARRANGEMENTS OF FUNCTIONS

23.	Decreasing Rearrangements on General Measure Spaces .....	143
24.	Variation Reducing Property of Decreasing Rearrangements .....	150
25.	Some Extremal and Related Problems .....	156
26.	Hardy-Littlewood Majorants in Function Spaces	158
27.	Some Extensions of an Interpolation Theorem of Marcinkiewicz .....	163

BIBLIOGRAPHY .....	174
