Contents

Chapter I. Elliptic Space 1
1. Four-dimensional vector space 1
2. The concept of elliptic space 5
3. Curves in elliptic space 9
4. Surfaces in elliptic space 14
5. Fundamental equations in the theory of surfaces in elliptic space 18
Chapter II. Convex Bodies and Convex Surfaces in Elliptic Space 23
1. The concept of a convex body 23
2. Convex surfaces in elliptic space 25
3. The deviation of a segment on a convex surface from its semitangent at its initial point 30
4. Manifolds of curvature not less than K. A.D. Aleksandrov's theorem 34
Chapter III. Transformation of Congruent Figures 41
1. Transformation of congruent figures in elliptic space to congruent figures in Euclidean space 41
2. Transformation of congruent figures in Euclidean space onto congruent figures in elliptic space 45
3. Transformation by infinitesimal motions 49
4. Transformation of straight lines and planes 53
Chapter IV. Isometric Surfaces. 59
1. Transformation of isometric surfaces . 59

2. Transformation of locally convex isometric surfaces in elliptic space ... 63
3. Proof of lemma 1 ... 67
4. Transformation of locally convex isometric surfaces in Euclidean space .. 71
5. Proof of lemma 2 ... 74
Chapter V. Infinitesimal Deformations of Surfaces in Elliptic Space ... 77
1. Pairs of isometric surfaces and infinitesimal deformations ... 77
2. Transformation of surfaces and their infinitesimal deformations ... 81
3. Some theorems on infinitesimal deformations of surfaces in elliptic space. 85
Chapter VI. Single-Value Definiteness of General Convex Surfaces in Elliptic Space . 89
1. A lemma on rib points on a convex surface ... 89
2. Transformation of isometric dihedral angles and cones ... 92
3. Local convexity of the surfaces Φ_1 and Φ_2 at smooth points ... 97
4. Convexity and isometry of the surfaces Φ_1 and Φ_2 ... 101
5. Various theorems on uniqueness of convex surfaces in elliptic space ... 105
Chapter VII. Regularity of Convex Surfaces with a Regular Metric ... 113
1. The deformation equation for surfaces in elliptic space ... 113
2. Evaluation of the normal curvatures of a regular convex cap in elliptic space 117
3. Convex surfaces of bounded specific curvature in elliptic space ... 122
4. Proof of the regularity of convex surfaces with a regular metric in elliptic space ... 125
Bibliography ... 131
