

TABLE OF CONTENTS

Foreword	v
1. Introduction	3
2. Properties of Base Change	14
3. Applications to Artin L-functions	23
4. σ -Conjugacy	32
5. Spherical Functions	39
6. Orbital Integrals	80
7. Characters and Local Lifting	97
8. Convolution	141
9. The Primitive State of our Subject Revealed	145
10. The Trace Formula	172
11. The Comparison	198
References	233
Index of Terminology	235
Index of Notations	236
