

CONTENTS

Preface	v
Chapter 1 RIEMANNIAN MANIFOLDS	1
1. Riemannian manifolds	1
2. Covariant differentiation	4
3. Curvature tensor	12
4. Space forms	20
5. Conformal changes of Riemannian metric .	23
6. Theorem of Frobenius	27
Problems	30
Chapter 2 SUBMANIFOLDS	35
1. Induced connection and second fundamental form	35
2. Equations of Gauss, Codazzi, and Ricci .	44
3. Totally umbilical submanifolds	49
4. Scalar curvature of submanifolds	54
5. Submanifolds of euclidean space or sphere	58
6. Connection of van der Waerden-Bortolotti	64
Problems	67
Chapter 3 MINIMAL SUBMANIFOLDS	73
1. The first variation	73
2. Minimal submanifolds in euclidean space .	75
3. Minimal submanifolds of a submanifold . .	78
4. Examples of minimal submanifolds	86
5. Inequality of Simons	89
Problems	95
Chapter 4 SUBMANIFOLDS WITH PARALLEL MEAN CURVATURE VECTOR	99
1. Flat normal connection	99
2. Surfaces with parallel mean curvature vector	102
3. Surfaces with constant mean curvature in $\mathbb{R}^3(c)$	116
4. Local existence theorem for surfaces with constant mean curvature	121
5. Surfaces with parallel minimal section .	124
6. Axiom of spheres	129

7. Submanifolds with nonnegative sectional curvatures	132
Problems	143

Chapter 5 CONFORMALLY FLAT SUBMANIFOLDS 147

1. Quasi-umbilicity	147
2. Conformally flat submanifolds of codimension 2	150
3. Special conformally flat spaces	154
4. Locus of spheres	159
5. Canal hypersurfaces	166
Problems	168

Chapter 6 UMBILICAL SUBMANIFOLDS 171

1. Ricci curvature and scalar curvature for pseudoumbilical submanifolds	171
2. Quasiparallel normal directions	175
3. Nonparallel normal subbundles	180
4. Pseudoumbilical submanifolds with constant mean curvature	188
5. Characterizations of umbilical submanifolds	192
6. The Gauss map	202
Problems	208

Chapter 7 GEOMETRIC INEQUALITIES 211

1. Some results in Morse's theory	211
2. Some results of Chern and Lashof	213
3. Total mean curvature	218
4. Submanifolds with nonnegative scalar curvature	222
5. Surfaces in a euclidean 4-space	234
6. Tori in a euclidean 3-space	242
7. Stable hypersurfaces	245
Problems	251
