

W. K. ALLARD:	On the first variation of area and generalized mean curvature.	Pag.	1
F. J. ALMGREN JR. :	Geometric measure theory and elliptic variational problems.	"	31
E. GIUSTI:	Minimal surfaces with obstacles.	"	119
J. GUCKENHEIMER:	Singularities in soap-bubble-like and soap-film-like surfaces.	"	155
D. KINDERLEHRER:	The analyticity of the coincidence set in variational inequalities.	"	173
M. MIRANDA:	Boundaries of Caccioppoli sets in the calculus of variations.	"	189
L. C. PICCININI:	De Giorgi's measure and thin obstacles.	"	221
