

CONTENTS

The role of nearness spaces in topology by H.L.Bentley	1
Un théorème d'inversion locale by F.Berquier	23
Charaktergruppen von Gruppen von S^1 -wertigen stetigen Funktionen by E.Binz	43
Some cartesian closed topological categories of convergence spaces by G.Bourdaud	93
Topological functors and structure functors by G.C.L.Brümmer	109
An external characterization of topological functors by G.C.L.Brümmer and R.-E.Hoffmann	136
Homotopy and Kan extensions by A.Calder and J.Siegel	152
Tensor products of functors on categories of Banach spaces by J.Cigler	164
Duality of compactological and locally compact groups by J.B.Cooper and P.Michor	188
Products and sums in the category of frames by C.H.Dowker and Dona Strauss	208
Categorical methods in dimension theory by R.Dyckhoff	220
Envelopes on the category of Kakutani-M-spaces by J.Flachsmeyer	243

Compactly generated spaces and duality	
by A.Frölicher	254
Some topological theorems which fail to be true	
by H.Herrlich	265
Topological functors admitting generalized Cauchy-completions	
by R.E.Hoffmann	286
An external characterization of topological functors	
by R.-E.Hoffmann and G.C.L.Brümmer	136
Category theoretical methods in topological algebra	
by K.H.Hofmann	345
Lattices of reflections and coreflections in continuous structures	
by M.Hušek	404
Pro-categories and shape theory	
by S.Mardešić	425
A note on the inverse mapping theorem of F.Berquier	
by P.Michor	435
Duality of compactological and locally compact groups	
by P.Michor and J.B.Cooper	188
Cartesian closed topological categories	
by L.D.Nel	439
Epireflective categories of Hausdorff spaces	
by P.Nyikos	452
Categorical problems in minimal spaces	
by J.R.Porter	482
Some outstanding problems in topology and the V-process	
by M.Rajagopalan	501

Nearness and metrization	
by H.-Chr.Reichel	518
Reflective subcategories and closure operators	
by S.Salbany	548
Compactness theorems	
by M.Schroder	566
Differential calculus and cartesian closedness	
by U.Seip	578
Homotopy and Kan extensions	
by J.Siegel and A.Calder	152
Products and sums in the category of frames	
by Dona Strauss and C.H.Dowker	208
Perfect sources	
by G.E.Strecker	605
Espaces fonctionnels et structures syntopogènes	
by D.Tanré	625
Filters and uniformities in general categories	
by S.J.R.Vorster	635
Categories of topological transformation groups	
by J.de Vries	654
On monoidal closed topological categories I	
by M.B.Wischnewsky	676
On topological algebras relative to full and faithful dense functors	
by M.B.Wischnewsky	688
Are there topoi in topology?	
by O.Wyler	699
