

CONTENTS

Preface		iii
Chapter I	VERTICAL AND COMPLETE LIFTS FROM A MANIFOLD TO ITS TANGENT BUNDLE	1
	1. The Tangent Bundle	1
	2. Vertical Lifts	4
	3. Complete Lifts	14
	4. Lifts of Derivations	26
	5. Complete Lifts of Tensor Fields of Type (1, 1) and of Type (0, 2)	33
	6. Complete Lifts of Affine Connections	40
	7. Formulas on Lie Derivatives	48
	8. Properties of Differentiable Mappings	52
	9. Geodesics and Parallel Displacements in a Tangent Bundle	57
	10. The Tangent Bundle of a Symmetric Space	61
	11. Complete Lifts of f -Structures and Almost Contact Structures	63
	12. Infinitesimal Affine Transformations in a Tangent Bundle	67
	Exercises 1	81
Chapter II	HORIZONTAL LIFTS FROM A MANIFOLD TO ITS TANGENT BUNDLE	86
	1. Horizontal Lifts of Functions and Vector Fields	86
	2. Horizontal Lifts of 1-Forms	92
	3. Horizontal Lifts of Tensor Fields	93
	4. Adapted Frames	98

5. Horizontal Lifts of Tensor Fields of Type $(1, 1)$	102
6. Horizontal Lifts of Tensor Fields of Type $(0, 2)$	105
7. Horizontal Lifts of Affine Connections	106
8. Formulas on Lie Derivatives	113
9. Geodesics and Parallel Displacements in a Tangent Bundle.	114
10. Almost Complex Structures in a Tangent Bundle	117
Exercises 2	120

Chapter III

CROSS-SECTIONS IN THE TANGENT BUNDLE	122
1. Lifts of Tensor Fields on a Cross-Section	122
2. Lifts of Tensor Fields of Type $(1, 1)$ and of Type $(0, 2)$ on a Cross-Section	127
3. Affine Connections Induced on a Cross-Section	131
Exercises 3	136

Chapter IV

TANGENT BUNDLES OF RIEMANNIAN MANIFOLDS	137
1. Metrics in the Tangent Bundle of a Riemannian Manifold	137
2. The Metric II in the Tangent Bundle of a Riemannian Manifold	139
3. The Metric I + II in the Tangent Bundle of a Riemannian Manifold	147
4. The Metric Connection with Respect to the Metric II	151
5. The Metric I + III in the Tangent Bundle of a Riemannian Manifold	155
6. Almost-Kählerian Structures in a Tangent Bundle with Metric I + III	166
7. Geodesics in a Tangent Bundle with Metric I + III	171
Exercises 4	175

Chapter V	PROLONGATIONS OF G-STRUCTURES TO TANGENT BUNDLES	178
	1. The Tangent Group	178
	2. The Prolongation of a G-Structure to the Tangent Bundle	186
	3. The Integrability of the Prolongation of a G-Structure	189
	4. Prolongations of Tensor Fields and G-Structures to the Tangent Bundle	192
	5. Lifts of G-Connections	197
	6. The Linear Holonomy Group in the Tangent Bundle	204
	Exercises 5	207
Chapter VI	NON-LINEAR CONNECTIONS IN TANGENT BUNDLES	209
	1. Non-Linear Connections	209
	2. Horizontal Lifts of Vector Fields	214
	3. Almost Complex Structures in the Tangent Bundle	216
	4. Finsler Metrics and Non-Linear Connections Exercises 6	218 223
Chapter VII	VERTICAL AND COMPLETE LIFTS FROM A MANIFOLD TO ITS COTANGENT BUNDLE	224
	1. The Cotangent Bundle	224
	2. The Basic 1-Form in the Cotangent Bundle	226
	3. Vertical Lifts of Tensor Fields of Type $(0, s)$	227
	4. Complete Lifts of Vector Fields	234
	5. Complete Lifts of Tensor Fields of Type $(1, 1)$ and of Type $(1, 2)$	241
	6. Complete Lifts of Derivations	246
	7. Almost Complex Structures in the Cotangent Bundle	250

	8. f -Structures in the Cotangent Bundle	259
	9. The Cotangent Group	262
	10. The Riemann Extension and the Complete Lift of a Symmetric Affine Connection	268
	Exercises 7	274
Chapter VIII	HORIZONTAL LIFTS FROM A MANIFOLD TO ITS COTANGENT BUNDLE	276
	1. Horizontal Lifts of Vector Fields	276
	2. Horizontal Lifts of Tensor Fields of Type $(1, 1)$	280
	3. Almost Complex Structures and f -Structures in the Cotangent Bundle	283
	4. Horizontal Lifts of Affine Connections	285
	5. Adapted Frames and Diagonal Lifts of Tensor Fields of Type $(1, 1)$	289
	6. Geodesics and Parallel Displacements in a Cotangent Bundle	297
	Exercises 8	300
Chapter IX	Tensor Fields and Connections on Cross-Sections in the Cotangent Bundle	301
	1. Lifts of Vector Fields on a Cross-Section	301
	2. Metrics and Connections Induced on a Cross-Section	304
	3. Lifts of Tensor Fields of Type $(1, 1)$ on a Cross-Section	308
	Exercises 9	314
Chapter X	PROLONGATIONS OF Tensor Fields and Connections to the Tangent Bundle of Order 2	315
	1. The Tangent Bundle of Order 2	315
	2. Lifts of Functions, Vector Fields and 1-Forms	319
	3. Lifts of Tensor Fields	325

4. Local Expressions for Lifts of Tensor Fields	330
5. Lifts of Tensor Fields of Type $(1, 1)$	335
6. Lifts of Affine Connections	338
7. Lifts of Infinitesimal Transformations	344
8. Geodesics and Parallel Displacements in a Tangent Bundle of Order 2	347
9. The Tangent Group of Order 2	352
10. Prolongations of G-Structures to the Tangent Bundle of Order 2	358
11. The Linear Holonomy Group in the Tangent Bundle of Order 2	367
Exercises 10	369
Chapter XI	
PROLONGATIONS OF TENSOR FIELDS, CON- NECTIONS AND G-STRUCTURES TO THE TANGENT BUNDLE OF HIGHER ORDER	372
1. The Tangent Bundle of Order r and Lifts of Functions	372
2. Lifts of Vector Fields	374
3. Lifts of 1-Forms and Tensor Fields	381
4. Local Expressions for Lifts of Tensor Fields	388
5. Lifts of Tensor Fields of Type $(1, 1)$	392
6. Lifts of Affine Connections	394
7. Lifts of Infinitesimal Transformations	399
8. The Tangent Group of Order r	401
9. Prolongations of G-Structures to the Tangent Bundle of Order r	404
10. Lifts of G-Connections and Linear Holonomy Groups in Tangent Bundles of Order r	409
Exercises 11	410
References	412
Index	421
