

CONTENTS

ABOUT THE BOOK	vi
USING THE BOOK IN A BEGINNING TOPOLOGY COURSE	ix
A VERY BRIEF HISTORY OF HYPERSPACE THEORY	xii
ACKNOWLEDGMENTS	xv
0. SOME BASIC FACTS AND NOTATION	1
Exercises	34
I. THE GENERAL STRUCTURE OF HYPERSPACES	55
A. Segments and Order-arcs-- Their Existence and Relationships	56
B. Hyperspaces as Continuous Images and Preimages of the Cone Over the Cantor Set	81
C. The Structure of $C(X)$ when X Is Indecomposable	99
D. The Structure of 2^X and $C(X)$ when X Is Locally Connected	132
E. The Hyperspace Operations and Inverse Limits	159
Exercises	194
II. DIMENSION OF $C(X)$	211
III. EMBEDDING $C(X)$ IN R^n	229
IV. MAPPINGS BETWEEN X , 2^X , AND $C(X)$	241
V. SELECTIONS	253
VI. RETRACTIONS	269
VII. THE FIXED POINT PROPERTY	291
VIII. RECOGNIZING HYPERSPACES AS CONES	301
IX. RECOGNIZING HYPERSPACES AS SUSPENSIONS	335
X. RECOGNIZING HYPERSPACES AS CARTESIAN PRODUCTS	339
XI. ARCWISE DISCONNECTING HYPERSPACES	357
XII. ARCWISE AND SEGMENTWISE ACCESSIBILITY	373
XIII. CONTINUUMWISE ACCESSIBILITY	395

XIV. WHITNEY PROPERTIES	399
A. Basic Whitney Properties	399
B. Some Non-Whitney Properties, Structure Results, and Questions	424
C. Whitney Stable Continua	433
D. Essentially Different Whitney Maps for $C(X)$	441
E. Whitney-Reversible Properties	453
F. Mappings between the Levels of $\mu^{-1}(t)$	465
G. Properties of Whitney Maps for 2^X	466
H. Spaces of Whitney Maps	473
I. Cut Points of $\mu^{-1}(t)$	475
J. The Covering Property (Revisited)	477
K. Whitney Hyperspaces	502
L. Two Hyperspace Functions	505
XV. CONTINUITY PROPERTIES OF THE HYPERSPACE OPERATIONS	513
XVI. CONTRACTIBILITY OF HYPERSPACES AND A PROPERTY OF KELLEY	531
XVII. HOMOGENEITY OF HYPERSPACES	563
XVIII. SPACES OF COMPACT CONVEX SETS	567
XIX. OTHER SPACES OF SPECIAL SETS	601
XX. APPENDIX--THE BOUNDARY BUMPING THEOREMS	625
BIBLIOGRAPHY	635
SUPPLEMENTARY BIBLIOGRAPHY, I	656
SUPPLEMENTARY BIBLIOGRAPHY, II	661
SUPPLEMENTARY BIBLIOGRAPHY, III	662
INDEX OF SPECIAL SYMBOLS	665
SUBJECT INDEX	667
