

# CONTENTS

	Page
Preface ... ..	iii & iv
<b>Chapter 1. Applications of the Engulfing Lemma</b>	
A. The Piecewise Linear Structure of Euclidean Space ... ..	1
B. Approximating Stable Homeomorphisms by Piecewise Linear Ones... ..	13
C. $h$ -Cobordism and the Hauptvermutung ... ..	25
<b>Chapter 2. Complexes in Euclidean Space</b>	
A. Unknotting Combinatorial Balls ... ..	79
B. Products with Intervals and Contractible Open Manifolds ... ..	97
C. Embedding of Manifolds in Euclidean Space	127
D. Taming Complexes ... ..	133
<b>Appendix A. Locally Flat Embeddings of Topological Manifolds ... ..</b>	<b>153</b>
<b>Appendix B. Some Remarks on Knot Theory ... ..</b>	<b>159</b>
<b>References and Select Bibliography ... ..</b>	<b>165</b>
<b>Index ... ..</b>	<b>171</b>
