

TABLE OF CONTENTS

CHAPTERS I - XI. MEASURES AND INTEGRALS

Foreword	i
I. Point Set Theory	3
II. Outer Measure.	12
III. Measure.	15
IV. Inner Measure.	24
V. Invariance of Measure under Transformation	27
VI. Covering Theorems.	32
VII. Non-measurable Sets.	38
VIII. Lebesgue Integral.	42
IX. Monotonic Functions.	63
X. General Measure Functions and Outer Measures	83
§1. Elementary Properties of Measure Functions.	83
§2. Outer Measure and Inner Measure	98
§3. General Extension Theorems	111
§4. Measure in Product Spaces	122
§5. Examples of Measure Functions	148
XI. Properties of the General Integral	174
§1. Bounded Variation and the Extension of Finite Measure Functions	174
§2. Absolute Continuity and the Integral.	197
§3. Elementary Properties of the Integral	222
§4. The Fubini Theorem and Related Theorems	245
