CONTENTS

CHAPTER I
RIEMANNIAN MANIFOLDS

1. Manifolds and tensor fields 1
2. Connections and covariant differentiations 18
3. Sectional curvature 31
4. Transformations 40
5. Fibre bundles and covering spaces 46
Exercises 54

CHAPTER II
SUBMANIFOLDS OF RIEMANNIAN MANIFOLDS

1. Induced connection and second fundamental form 61
2. Equations of Gauss, Codazzi and Ricci 67
3. Laplacian of the second fundamental form 73
4. Submanifolds of space forms 78
5. Minimal submanifolds 89
Exercises 99

CHAPTER III
COMPLEX MANIFOLDS

1. Almost complex manifolds and complex manifolds 104
2. Examples of complex manifolds and almost complex manifolds . 118
3. Hermitian manifolds 124
4. Kaehlerian manifolds 129
5. Nearly Kaehlerian manifolds 144
6. Quaternion Kaehlerian manifolds 158
Exercises 174

CHAPTER IV

SUBMANIFOLDS OF KAEHLERIAN MANIFOLDS

1. Kaehlerian submanifolds 180
2. Anti-invariant submanifolds of Kaehlerian manifolds . . . 199
3. CR submanifolds of Kaehlerian manifolds 214
Exercises 244

CHAPTER V

CONTACT MANIFOLDS

1. Almost contact manifolds 252
2. Contact manifolds 255
3. Torsion tensor of almost contact manifolds 263
4. Contact distribution 269
5. Sasakian manifolds 272
6. Regular contact manifolds 286
7. Brieskorn manifolds 291
Exercises 306

CHAPTER VI

SUBMANIFOLDS OF SASAKIAN MANIFOLDS

1. Invariant submanifolds of Sasakian manifolds 312
2. Anti-invariant submanifolds tangent to the structure vector field of Sasakian manifolds 329
3. Anti-invariant submanifolds normal to the structure vector field of Sasakian manifolds 344
4. Contact CR submanifolds 351
5. Induced structures on submanifolds 366
Exercises 372

CHAPTER VII

f-STRUCTURES

1. f-structure on manifolds 379
2. Normal f-structure 392
3. Framed f-structure 402

4. Hypersurfaces of framed manifolds 408
Exercises 412

CHAPTER VIII

PRODUCT MANIFOLDS

1. Locally product manifolds 414
2. Locally decomposable Riemannian manifolds 418
3. Submanifolds of product manifolds 424
4. Submanifolds of Kaehlerian product manifolds 429
Exercises 436

CHAPTER IX

SUBMERSIONS

1. Fundamental equations of submersions 439
2. Almost Hermitian submersions 448
3. Submersions and submanifolds 455
Exercises 467

BIBLIOGRAPHY 473
