

C O N T E N T S

0	Introduction	1
1	Applications	5
2	Definitions and Notation	11
3	Construction of $Wh(Y)_\epsilon$	13
4	Functorial Properties	17
5	Controlled Whitehead Torsion	19
6	Construction of $K_O(Y)_\epsilon$	26
7	Controlled Finiteness Obstruction	28
8	Further Properties of the Controlled Finiteness Obstruction	33
9	The Splitting Homomorphism	41
10	The Splitting Sequence	50
11	The Realization Theorem	60
12	Calculations	70
13	The Controlled Boundary Theorem	79
14	The Controlled s -Cobordism Theorem	84
	References	91
	Index	93
