

CONTENTS

	<u>page</u>
1. Introduction.....	1
2. States, Trails, and the Clock Theorem.....	12
3. State Polynomials and the Duality Conjecture.....	53
4. Knots and Links.....	67
5. Axiomatic Link Calculations.....	78
6. Curliness and the Alexander Polynomial.....	95
7. The Coat of Many Colors.....	105
8. Spanning Surfaces.....	114
9. The Genus of Alternative Links.....	125
10. Ribbon Knots and the Arf Invariant.....	143
Appendix. The Classical Alexander Polynomial.....	156
References.....	165
