

Contents

Preface viii

1

Introduction 3

2

Language and Structure 13

3

The Hyperreal Numbers 25

4

The Hyperreal Line 32

5

Continuous Functions 42

6

Integral Calculus 52

7

Differential Calculus 65

8

The Fundamental Theorem 77

9

Infinite Sequences and Series 84

10

Infinite Polynomials 95

11

The Topology of the Real Line 106

12

Standard Calculus and Sequences of Functions 116

Appendix A Defining Quasi-big Sets 126

Appendix B The Proof of Theorem 3.1 128

Subject Index 130

Name Index 134
