

TABLE OF CONTENTS

Introduction	7
0.1 Inequalities involving mean values	9
0.2 Bernoulli's inequality	15
0.3 Chebychev's inequality	16
0.4 Abel's inequality	18
0.5 The Cauchy-Schwarz-Buniakowski inequality . . .	19
0.6 Young's inequality	20
0.7 Jensen's inequality	23
0.8 The Fejér-Jackson inequality	30
0.9 Jordan's inequality	30
0.10 Some integral inequalities	31
0.11 Some inequalities for symmetric functions	32
1 Elementary inequalities	36
2 Inequalities obtainable from functional considerations	53
3 Inequalities involving powers and factorials	77
4 Inequalities involving finite sums and products . .	91
5 Inequalities involving trigonometric functions . . .	101
6 Geometric inequalities	111
7 Inequalities involving mean values and symmetric functions	120
8 The inequalities of Cauchy-Schwarz-Buniakowski, Hölder, Minkowski and Chebychev	129
9 Inequalities involving integrals	131
10 Inequalities in the complex domain.	138
11 Miscellaneous inequalities	144
