Preface iii

Contributors xi

The class of compact balanced manifolds is invariant under modifications
L. Alessandrini and G. Bassanelli 1

On tangent hyperplanes to complex projective curves
E. Ballico 19

Infinite dimensional supergeometry
J. Bingener and T. Lehmkuhl 27

Unfoldings of holomorphic maps as deformations
R.-O. Buchweitz and H. Flenner 95

On the uniqueness and characterization of Grauert tubes
D. Burns 119

Hölder regularity for $\Box_b$ on hypersurfaces in C^n with non-diagonalizable Levi form
M. Derridj 135

Exploding orbits of hamiltonian and contact structures
J.E. Fornaess and S. Grellier 155

Holomorphic automorphisms of C^n: A survey
F. Forstneric 173

Complex structures on compact conformal manifolds of negative type
P. Gauduchon 201

$G_{m,h}$-bundles over foliations with complex leaves
G. Gigante and G. Tomassini 213

A real analytic version of Abels' theorem and complexifications of proper Lie group actions
P. Heinzner, A. Huckleberry and F. Kutzschebauch 229

Pseudoconcave CR manifolds
C. D. Hill and M. Nacinovich 275

Exotic structures on C^n and C^*-action on C^3
S. Kaliman 299

Anti-involutions, symmetric complex manifolds, and quantum spaces
J. Lawrynowicz and E. Ramirez de Arellano 309

Newlander-Nirenberg type theorem for analytic algebras
T. Maszczyk 319

Semi-positivity and cotangent bundles
K. Oguiso and T. Peternell 349

On a class of $(-3,1)$-exceptional P^1
T. Ohsawa 369

$\partial\overline{\partial}$-closed positive currents and special metrics on compact complex manifolds
A. Silva 377

Isocurved deformations of Riemannian homogeneous metrics
A. Tomassini and F. Tricerri 443

On the propagation of extendibility of CR functions
A. Tumanov 479

Completions of instantons moduli space and control theory
G. Valli 499

Itérées et points fixes d'applications holomorphes
J.-P. Vigué 509

Holomorphic functions on an algebraic group invariant under Zariski-dense subgroups
J. Winkelmann 519

Pseudoconvexity and pseudoconcavity of dihedrons of C^n
G. Zampieri 529

Canonical symplectic structure of a Levi foliation
G. Zampieri 541
