

## CONTENTS

Introduction	x <i>i</i>
Leitfaden	x <i>iii</i>
Chapter 1 - CHAMBER SYSTEMS AND EXAMPLES	
1. Chamber Systems	1
2. Two Examples of Buildings	4
Exercises	7
Chapter 2 - COXETER COMPLEXES	
1. Coxeter Groups and Complexes	9
2. Words and Galleries	12
3. Reduced Words and Homotopy	17
4. Finite Coxeter Complexes	19
5. Self-Homotopy	22
Exercises	24
Chapter 3 - BUILDINGS	
1. A Definition of Buildings	27
2. Generalised m-gons - the rank 2 case	28
3. Residues and Apartments	30
Exercises	35
Chapter 4 - LOCAL PROPERTIES AND COVERINGS	
1. Chamber Systems of Type M	39
2. Coverings and the Fundamental Group	41
3. The Universal Cover	44
4. Examples	47
Exercises	51
Chapter 5 - BN - PAIRS	
1. Tits Systems and Buildings	55
2. Parabolic Subgroups	59
Exercises	61

## Chapter 6 - BUILDINGS OF SPHERICAL TYPE AND ROOT GROUPS

1. Some Basic Lemmas	63
2. Root Groups and the Moufang Property	66
3. Commutator Relations	68
4. Moufang Buildings - the general case	73
Exercises	80

## Chapter 7 - A CONSTRUCTION OF BUILDINGS

1. Blueprints	83
2. Natural Labellings of Moufang Buildings	86
3. Foundations	89
Exercises	91

## Chapter 8 - THE CLASSIFICATION OF SPHERICAL BUILDINGS

1. $A_3$ Blueprints and Foundations	92
2. Diagrams with Single Bonds	95
3. $C_3$ Foundations	97
4. $C_n$ Buildings for $n \geq 4$	98
5. Tits Diagrams and $F_4$ Buildings	100
6. Finite Buildings	106
Exercises	108

## Chapter 9 - AFFINE BUILDINGS I

1. Affine Coxeter Complexes and Sectors	110
2. The Affine Building $\tilde{A}_{n-1}(K, v)$	114
3. The Spherical Building at Infinity	120
4. The Proof of (9.5)	124
Exercises	127

## Chapter 10 - AFFINE BUILDINGS II

1. Apartment Systems, Trees and Projective Valuations	129
2. Trees associated to Walls and Panels at Infinity	133
3. Root Groups with a Valuation	138
4. Construction of an Affine BN-Pair	144
5. The Classification	152
6. An Application	157
Exercises	160

Appendix 1 - MOUFANG POLYGONS	
1. The $m$ -function	162
2. The Natural Labelling for a Moufang Plane	166
3. The Non-existence Theorem	169
Appendix 2 - DIAGRAMS FOR MOUFANG POLYGONS	175
Appendix 3 - NON-DISCRETE BUILDINGS	180
Appendix 4 - TOPOLOGY AND THE STEINBERG REPRESENTATION	184
Appendix 5 - FINITE COXETER GROUPS	190
Appendix 6 - FINITE BUILDINGS AND GROUPS OF LIE TYPE	191
BIBLIOGRAPHY	194
INDEX OF NOTATION	198
INDEX	199
