

CONTENTS

Preface to the Revised Edition	vii
Preface to the First Edition	ix
A Note on the Revised Edition	1
1. Introduction	3
I. Two Sources of Pessimism in the Social Sciences	3
II. Early Examples of Meta-Analytic Procedures	5
III. The Current Status of Meta-Analytic Procedures	10
IV. An Empirical Evaluation of Meta-Analytic Procedures	12
2. Defining Research Results	13
I. Effect Size and Statistical Significance	14
II. Inferential Errors	20
III. Adjusting Effect Size Estimates	21
IV. Some Solutions to the Problem of Multiple (Correlated) Results	26
V. A Summary of Some Effect Size Indicators	34
3. Retrieving and Assessing Research Results	36
I. Retrieving Research Results	36
II. Assessing Research Results	46
4. Comparing and Combining Research Results	59
I. A Framework for Meta-Analytic Procedures	59
II. Meta-Analytic Procedures: Two Independent Studies	61
III. Meta-Analytic Procedures: Any Number of Independent Studies	72

5. Combining Probabilities	89
I. General Procedures	89
II. Special Issues	101
6. Illustrations of Meta-Analytic Procedures	110
I. Displaying and Combining Effect Sizes	110
II. Combining Effect Sizes and Significance Levels	111
III. Combining Effect Sizes and Blocking	114
IV. Combining Effect Sizes, Blocking, and Confidence Intervals	116
V. Comparing Effect Sizes: Early Comparisons, Focused and Diffuse	117
VI. Comparing Effect Sizes: More Recent Comparisons	120
VII. A One-Sample Effect Size Index: Π	123
7. The Evaluation of Meta-Analytic Procedures and Meta-Analytic Results	127
I. Sampling Bias and the File Drawer Problem	128
II. Loss of Information	128
III. Problems of Heterogeneity	129
IV. Problems of Independence	130
V. Exaggeration of Significance Levels	132
VI. The Practical Importance of the Estimated Effect Size	132
References	137
Index	149
