<i>Preface to the second edition</i>	xiii
<i>Preface to the first edition</i>	xv
1    Introductory example: a gravitational catastrophe machine	1
2    Curves, and functions on them	10
Parametrized curves	13
Tangent vectors	15
Contact	18
Reparametrization	23
Curvature	28
Functions on plane curves	32
Space curves	41
3    More about functions	48
Right equivalence	48
Flat functions	54
Jets	55
4    Regular values and smooth manifolds	59
Smooth maps and parametrized manifolds	60
Regular values	65
Tangent spaces	74
The Morse lemma	85
Morse lemma with parameters	95
5    Envelopes	99
Families and envelopes	99

	Other definitions of envelope	107
	Local structure of envelopes	110
	Examples of envelopes	118
	Envelopes and differential equations	131
6	Unfoldings	133
	Unfoldings and (p)versal unfoldings	134
	Versal unfoldings	148
	Cusps	153
7	Unfoldings: applications	160
	Distance-squared and height functions	160
	Envelopes	168
	Developable surfaces and the tangent developable of a space curve	178
	Some different local pictures	182
	Symmetry sets	184
	Caustics by reflexion	192
	Duals and differential equations	200
8	Transversality	206
	Smooth manifolds	207
	Transversality	211
	Thom's transversality lemma	216
	Algebraic surfaces and more on apparent contours	220
	Open and dense properties	222
9	Generic properties of curves	226
	The Monge-Taylor map	227
	A transversality theorem for space curves	237
10	More on unfoldings	240
	Determining the power series	241
	Proof of convergence	243
11	Singular points, several variables, generic surfaces	250
	The geometry of surfaces in Euclidean 3-space	250
	Functions of one variable (again)	253
	Families of differential equations	257
	Differential equations	262
	Functions of several variables	263
	$\mathcal{A}$ -trivial families	266

A little algebra	269
The determinacy theorem	273
Classification of functions	278
Surfaces in Euclidean 3-space again	284
Moduli and simple singularities	288
Simple singularities	292
<i>Appendix</i> Null sets and Sard's theorem	297
<i>Historical note</i>	301
<i>Further reading</i>	305
<i>References</i>	306
<i>Index of notation</i>	309
<i>Index</i>	311
