

# Contents

Preface	vii
Chapter 1. Basic Results of Functional Analysis	1
§1. Banach spaces	1
§2. Conjugate spaces and the weak topology	3
§3. Functions with values in a Banach space	7
Chapter 2. Dissipative Operators	13
§1. The duality mapping	13
§2. Dissipative operators	19
§3. Properties of maximal dissipative and $m$ -dissipative operators	30
Chapter 3. Semigroups of Nonlinear Contractions	45
§1. Semigroups of contractions	45
§2. Denseness of $\hat{D}$	58
§3. Approximation of semigroups of contractions and the exponential formula	66
Chapter 4. Generation of Semigroups of Nonlinear Contractions	77
§1. Generation of semigroups of contractions I; the case of a general Banach space	77
§2. Cauchy's problems	87
§3. Generation of semigroups of contractions II; the case where $X^*$ is a uniformly convex Banach space	89
§4. Examples	104
Chapter 5. Cauchy Problems for Evolution Equations	121
§1. Integral solutions of Cauchy problems	121
§2. Difference approximations for Cauchy problems	130
§3. Existence and uniqueness of integral solutions; generation of nonlinear semigroups	141
§4. Cauchy's problem for $(d/dt)u(t) \in Au(t) + f(t)$	153

<b>Chapter 6. Convergence and Perturbation of Nonlinear Semigroups</b>	<b>163</b>
§1. Convergence of dissipative operators	163
§2. Convergence of semigroups	167
§3. Perturbation of semigroups	178
§4. Applications of perturbation theorems; on the evolution equation $(d/dt)u(t) = A(t)u(t)$	185
<b>Chapter 7. Quasilinear Partial Differential Equations of First Order</b>	<b>193</b>
§1. Preparation	193
§2. Cauchy's problem for quasilinear partial differential equations of first order and its difference approximation	197
§3. Proof of Theorem 7.4	201
<b>Appendix. The Minimax Theorem</b>	<b>215</b>
<b>Postscript</b>	<b>219</b>
<b>Bibliography</b>	<b>223</b>
<b>Subject Index</b>	<b>229</b>
