|--|-----|
| Preface                                      | vii |
| <b>I Basic fibrewise topology</b>            | 1   |
| 1. Fibrewise topological spaces              | 1   |
| 2. Fibrewise separation conditions           | 13  |
| 3. Fibrewise compact spaces                  | 24  |
| 4. Tied filters                              | 32  |
| 5. Fibrewise quotient spaces                 | 35  |
| 6. Fibrewise pointed topological spaces      | 41  |
| 7. Relation with equivariant topology        | 46  |
| Exercises                                    | 53  |
| <b>II Further fibrewise topology</b>         | 55  |
| 8. Fibrewise compactification                | 55  |
| 9. The fibrewise mapping-space               | 63  |
| 10. Fibrewise compactly-generated spaces     | 78  |
| 11. Naturality and naturalization            | 88  |
| Exercises                                    | 93  |
| <b>III Fibrewise uniform spaces</b>          | 95  |
| 12. Fibrewise uniform structures             | 95  |
| 13. Fibrewise uniform topology               | 99  |
| 14. The Cauchy condition                     | 102 |
| 15. Fibrewise completion                     | 107 |
| 16. Functoriality                            | 110 |
| 17. Fibrewise compactness and precompactness | 113 |
| Exercises                                    | 118 |
| <b>IV Fibrewise homotopy theory</b>          | 120 |
| 18. Fibrewise homotopy                       | 120 |
| 19. Fibrewise pointed homotopy               | 125 |
| 20. Fibrewise cofibrations                   | 132 |
| 21. Fibrewise pointed cofibrations           | 140 |
| 22. Fibrewise non-degenerate spaces          | 147 |
| 23. Fibrewise fibrations                     | 159 |

## Contents

|   |     |
|---|-----|
| 24. Relation with equivariant homotopy theory | 168 |
| Exercises                                     | 174 |
| <b>V Miscellaneous topics</b>                 | 176 |
| 25. Fibre bundles                             | 176 |
| 26. Numerable coverings                       | 182 |
| 27. Fibrewise connectedness                   | 187 |
| Exercises                                     | 190 |
| <i>Note on the literature</i>                 | 191 |
| <i>References</i>                             | 193 |
| <i>Index</i>                                  | 195 |
