# TABLE OF CONTENTS

<b>1. DIFFEOMORPHISM GROUPS : A FIRST GLANCE</b> .....	<b>1</b>
1.1. The group $\text{Diff}^r(M)$ .....	1
1.2. The smooth structure of $\text{Diff}^r(M)$ .....	3
1.3. Basic examples and classical diffeomorphism groups .....	6
1.4. Some properties of Lie algebras of vector fields .....	15
1.5. Splitting of the de Rham complex .....	18
<b>2. THE SIMPLICITY OF DIFFEOMORPHISM GROUPS</b> .....	<b>23</b>
2.1. From perfectness to simplicity .....	23
2.2. Epstein's theorem .....	37
2.3. Herman's theorem .....	41
2.4. Foliations and diffeomorphism groups .....	47
2.5. Equivariant diffeomorphisms .....	49
<b>3. THE GEOMETRY OF THE FLUX</b> .....	<b>55</b>
3.1. The flux homomorphism .....	55
3.2. The transgression of the flux .....	69
3.3. The flux and gauge groups .....	81
3.4. More cohomology classes related to the flux .....	85
<b>4. SYMPLECTIC DIFFEOMORPHISMS</b> .....	<b>93</b>
4.1. The Weinstein chart .....	93
4.2. A first glance at the kernel of the flux and new invariants .....	98
4.3. Statement of the main results .....	112
4.4. Symplectic of the torus $T^{2n}$ .....	113
4.5. The symplectic deformation lemma .....	116
<b>5. VOLUME PRESERVING DIFFEOMORPHISMS</b> .....	<b>124</b>
5.1. Statement of the main results .....	124
5.2. Proof of Thurston's fragmentation lemma .....	127
5.3. Proof of the volume-preserving deformation lemma .....	131

<b>6. CONTACT DIFFEOMORPHISMS</b> .....	138
6.1. Contact Geometry preliminaries .....	138
6.2. The Lychagin chart .....	143
6.3. Epstein axioms hold for contact diffeomorphisms .....	145
6.4. The transverse flux .....	149
6.5. The group of strictly contact diffeomorphisms .....	153
<b>7. ISOMORPHISMS BETWEEN DIFFEOMORPHISM GROUPS</b> .....	155
7.1. Statement of the main results .....	155
7.2. Pursell-Shanks and Omori's theorems .....	158
7.3. Takens theorem and its generalizations .....	163
7.4. The General Theory .....	167
7.5. The contact case .....	174
7.6. The symplectic and volume preserving cases .....	177
7.7. The measure preserving homeomorphisms .....	179
7.8. Miscellaneous problems .....	182
<b>Bibliography</b> .....	184
<b>Index</b> .....	196
