Preface .....	xi
About the Author .....	xiii
Acknowledgments .....	xv
Software Installation .....	xvii

## ***PART I History and Methods***

<b>Chapter 1</b> Early Research on Circadian Rhythms .....	3
1.1 Remote Past .....	3
1.2 20th Century .....	8
1.3 Current Trends .....	13
1.4 Ethics of Animal Research .....	19
Summary .....	24
Exercises .....	24
Suggestions for Further Reading .....	25
Web Sites to Explore .....	26
Literature Cited .....	26
<b>Chapter 2</b> Research Methods in Circadian Physiology .....	33
2.1 The Scientific Method .....	33
2.2 Research on Populations and Organisms .....	40
2.3 Research on Organs, Cells, and Molecules .....	45
2.4 Research on the Environment .....	52
Summary .....	57
Exercises .....	57
Suggestions for Further Reading .....	60
Web Sites to Explore .....	60
Literature Cited .....	60
<b>Chapter 3</b> Analysis of Circadian Rhythmicity .....	69
3.1 Data Analysis .....	69
3.2 Mean Level, Amplitude, and Phase .....	73
3.3 Period, Waveform, and Robustness .....	80
3.4 Statistical Significance .....	87
Summary .....	96
Exercises .....	97
Suggestions for Further Reading .....	99
Web Sites to Explore .....	99
Literature Cited .....	99

## ***PART II Phenomenology***

<b>Chapter 4</b>	Ultradian and Infradian Rhythms.....	105
4.1	Environmental Rhythms .....	105
4.2	Ultradian Rhythms.....	110
4.3	Infradian Rhythms .....	114
4.4	Annual Rhythms .....	123
	Summary.....	132
	Exercises.....	133
	Suggestions for Further Reading .....	136
	Web Sites to Explore.....	136
	Literature Cited .....	137
<b>Chapter 5</b>	Daily and Circadian Rhythms.....	153
5.1	Environmental and Populational Rhythms.....	153
5.2	Behavioral Rhythms .....	158
5.3	Autonomic Rhythms.....	170
	Summary.....	183
	Exercises.....	183
	Suggestions for Further Reading .....	187
	Web Sites to Explore.....	187
	Literature Cited .....	187

## ***PART III Mechanisms***

<b>Chapter 6</b>	Endogenous Mechanisms.....	217
6.1	Endogenous Rhythmicity .....	217
6.2	Inheritance Mechanisms .....	228
6.3	Single or Multiple Oscillators .....	233
	Summary.....	239
	Exercises.....	239
	Suggestions for Further Reading .....	240
	Web Sites to Explore.....	241
	Literature Cited .....	241
<b>Chapter 7</b>	Photic Environmental Mechanisms.....	255
7.1	Nonparametric Theory of Entrainment .....	255
7.2	Photic Parameters .....	277
7.3	Synthesis and Models.....	284
	Summary.....	291
	Exercises.....	291
	Suggestions for Further Reading .....	294
	Web Sites to Explore.....	294
	Literature Cited .....	294
<b>Chapter 8</b>	Nonphotic Environmental Mechanisms.....	303
8.1	Nonphotic Entrainment.....	303
8.2	A Separate Food-Entrainable Pacemaker.....	312
	Summary.....	316

<b>Chapter 13</b> Afference and Efference.....	517
13.1 Afferent Pathways.....	517
13.2 Efferent Pathways.....	529
Summary.....	538
Exercises.....	539
Suggestions for Further Reading.....	541
Web Sites to Explore.....	541
Literature Cited.....	541

## ***PART V Applications***

<b>Chapter 14</b> Optimal Timing on Earth and in Space.....	555
14.1 Best Time for Sports and Intellectual Activities.....	555
14.2 Space Exploration.....	562
Summary.....	565
Exercises.....	566
Suggestions for Further Reading.....	567
Web Sites to Explore.....	567
Literature Cited.....	567

<b>Chapter 15</b> Jet Lag and Shift Work.....	571
15.1 The Jet-Lag Syndrome.....	571
15.2 The Shift-Work Malaise.....	578
Summary.....	582
Exercises.....	583
Suggestions for Further Reading.....	583
Web Sites to Explore.....	584
Literature Cited.....	584

<b>Chapter 16</b> Human Medicine.....	589
16.1 Chronotherapeutics.....	589
16.2 Sleep Disorders.....	594
16.3 Depression.....	599
Summary.....	607
Exercises.....	608
Suggestions for Further Reading.....	608
Web Sites to Explore.....	609
Literature Cited.....	609

<b>Chapter 17</b> Pet Selection and Veterinary Medicine.....	617
17.1 Pet Selection.....	617
17.2 Veterinary Medicine.....	619
Summary.....	623
Exercises.....	623
Suggestions for Further Reading.....	625
Web Sites to Explore.....	626
Literature Cited.....	626

Exercises.....	316
Suggestions for Further Reading.....	318
Web Sites to Explore.....	318
Literature Cited.....	318

<b>Chapter 9</b> Integration of Mechanisms.....	327
9.1 Internal Order.....	327
9.2 Ecology and Evolution.....	335
9.3 Lifetime Changes.....	350
Summary.....	365
Exercises.....	366
Suggestions for Further Reading.....	367
Web Sites to Explore.....	367
Literature Cited.....	368

<b>Chapter 10</b> Homeostasis and Circadian Rhythmicity.....	387
10.1 Temperature Regulation.....	387
10.2 Sleep, Feeding, and Energy Expenditure.....	404
Summary.....	414
Exercises.....	415
Suggestions for Further Reading.....	417
Web Sites to Explore.....	417
Literature Cited.....	417

## ***PART IV Physical Substrates***

<b>Chapter 11</b> Receptors.....	447
11.1 Sensory Input.....	447
11.2 Photic Receptors.....	449
11.3 Nonphotic Receptors.....	456
Summary.....	461
Exercises.....	462
Suggestions for Further Reading.....	463
Web Sites to Explore.....	463
Literature Cited.....	463

<b>Chapter 12</b> Pacemakers.....	473
12.1 The Suprachiasmatic Nucleus.....	473
12.2 Cellular Processes.....	479
12.3 Molecular Processes.....	485
12.4 Other Pacemakers.....	492
Summary.....	499
Exercises.....	500
Suggestions for Further Reading.....	501
Web Sites to Explore.....	501
Literature Cited.....	501

<b>Chapter 13</b> Afference and Efference.....	517
13.1 Afferent Pathways.....	517
13.2 Efferent Pathways.....	529
Summary.....	538
Exercises.....	539
Suggestions for Further Reading.....	541
Web Sites to Explore.....	541
Literature Cited.....	541

## ***PART V Applications***

<b>Chapter 14</b> Optimal Timing on Earth and in Space.....	555
14.1 Best Time for Sports and Intellectual Activities.....	555
14.2 Space Exploration.....	562
Summary.....	565
Exercises.....	566
Suggestions for Further Reading.....	567
Web Sites to Explore.....	567
Literature Cited.....	567

<b>Chapter 15</b> Jet Lag and Shift Work.....	571
15.1 The Jet-Lag Syndrome.....	571
15.2 The Shift-Work Malaise.....	578
Summary.....	582
Exercises.....	583
Suggestions for Further Reading.....	583
Web Sites to Explore.....	584
Literature Cited.....	584

<b>Chapter 16</b> Human Medicine.....	589
16.1 Chronotherapeutics.....	589
16.2 Sleep Disorders.....	594
16.3 Depression.....	599
Summary.....	607
Exercises.....	608
Suggestions for Further Reading.....	608
Web Sites to Explore.....	609
Literature Cited.....	609

<b>Chapter 17</b> Pet Selection and Veterinary Medicine.....	617
17.1 Pet Selection.....	617
17.2 Veterinary Medicine.....	619
Summary.....	623
Exercises.....	623
Suggestions for Further Reading.....	625
Web Sites to Explore.....	626
Literature Cited.....	626

<b>Dictionary of Circadian Physiology</b> .....	631
Introduction .....	631
English Dictionary.....	633
Language Equivalency .....	643
Units of Measurement.....	645
<b>Organisms Used</b> .....	649
<b>Index</b> .....	661
