

# Contents

Evolutionary Trends in Body Size <i>Andy Purvis and C. David L. Orme</i> .....	1
Sexual Dimorphism in the Growth of <i>Homo sapiens</i> : Facts, Inferences and Speculation <i>Ron G. Rosenfeld</i> .....	19
Genetic Control of Size at Birth <i>David B. Dunger, C.J. Perty, and K.K. Ong</i> .....	27
The GH/IGF-1 Axis: Insights from Animal Models <i>Martin Holzenberger, Laurent Kappeler, Carlos De Magalhaes Filho, and Yves Le Bouc</i> .....	41
Downstream Mechanisms of Growth Hormone Actions <i>Vivien Hwa and Ron G. Rosenfeld</i> .....	53
Growth Hormone Receptor Signaling and Differential Actions in Target Tissue Compared to IGF-I <i>Paul A. Kelly, Anne Bachelot, Athanasia Sotiropoulos, and Nadine Binart</i> .....	65
IGF-I and Brain Growth: Multifarious Effects on Developing Neural Cells and Mechanisms of Actions <i>Teresa L. Wood, Terra J. Frederick, and Jennifer K. Ness</i> .....	77
IGF-I Deficiency: Lessons from Human Mutations <i>Martin O. Savage, Cecilia Camacho-Hübner, Marie-José Walenkamp, L.A. Metherell, A. David, L.A. Pereira, Adam Denley, A.J.L. Clark, and Jan Maarten Wit</i> .....	95
Putting IGF-I Biology into a Clinical Perspective <i>Peter E. Clayton, U. Das, and A.J. Whatmore</i> .....	107

VIII Contents

IGF Resistance: The Role of the Type 1 IGF Receptor  
*Steven D. Chernausek, M. Jennifer Abuzzahab, Wieland Kiess,  
Doreen Osgood, Anke Schneider, and Robert J. Smith.* ..... 121

The Importance of the National Cooperative Growth Study (NCGS)  
*Raymond L. Hintz* ..... 131

Why are we Treating Children with Growth Hormone  
*Jean Claude Carel and Jean-Louis Chaussain* ..... 143

Subject Index ..... 153
