# List of Figures and Tables

## Figures

|     |  |     |
|-----|--|-----|
| 3.1 | Daily average turnover in the derivatives segment of the National Stock Exchange, India      | 18  |
| 3.2 | Growth in the derivatives segment of the National Stock Exchange, India                      | 18  |
| 3.3 | Actual and theoretical premiums on Nifty index calls   | 25  |
| 3.4 | Implied volatility on index call option expiring 30 August 2001, $K = 1,180$                 | 30  |
| 3.5 | Implied volatility on index call option expiring 28 March 2002, $K = 1,180$                  | 30  |
| 4.1 | The efficient frontier based on the weekly indices of emerging markets and developed markets | 46  |
| 6.1 | Orthogonalized impulse responses of variables to shocks in equations                         | 82  |
| 8.1 | Selecting models for normal market risk  | 159 |
| 8.2 | Selecting models for abnormal market risk  | 160 |

## Tables

|     |   |    |
|-----|---|----|
| 3.1 | Historical volatility estimates of the underlying index                                   | 22 |
| 3.2 | 91-day Government of India treasury bill yields   | 23 |
| 3.3 | Expiry dates and exercise prices on Nifty Index options used in this study                | 23 |
| 3.4 | Option Greeks: equations used for calculations on call options                            | 24 |
| 3.5 | Call premiums, volatilities and option Greeks on nifty index call options                 | 26 |
| 3.6 | Delta estimates and the likelihood of index call options being in-the-money on expiration | 32 |
| 4.1 | Analysis of the stock exchange markets of the sample                                      | 42 |
| 4.2 | Coefficients of correlation between stockmarkets  | 45 |
| 4.3 | Application of the global market model to emerging and industrialized markets             | 50 |

|      |  |     |
|------|--|-----|
| 5.1  | Results of the Dickey–Fuller unit-root test                                | 66  |
| 5.2  | Results of the autocorrelation test  | 66  |
| 5.3  | Results of the day-of-the-week effect                                      | 67  |
| 6.1  | Descriptive statistics   | 75  |
| 6.2  | Granger causality tests  | 80  |
| 6.3  | Three-variable innovation accounting                                       | 84  |
| 7.1  | Quantitative analysis data: daily volatility, beta, skewness and kurtosis  | 113 |
| 7.2  | Quantitative analysis data: annual volatility, beta, skewness and kurtosis | 114 |
| 7.3  | Quantitative analysis data: exact correlation matrix                       | 115 |
| 7.4  | Quantitative analysis data: correlation 1 matrix                           | 116 |
| 7.5  | Quantitative analysis data: correlation 0 matrix                           | 117 |
| 7.6  | Equity trading risk management report (analysis of case 1)                 | 119 |
| 7.7  | Equity trading risk management report (analysis of case 2)                 | 121 |
| 7.8  | Equity trading risk management report (analysis of case 3)                 | 122 |
| 7.9  | Equity trading risk management report (analysis of case 4)                 | 123 |
| 7.10 | Equity trading risk management report (analysis of case 5)                 | 124 |
| 7.11 | Equity trading risk management report (analysis of case 6)                 | 125 |
| 7.12 | Equity trading risk management report (analysis of case 7)                 | 127 |
| 7.13 | Equity trading risk management report (analysis of case 8)                 | 128 |
| 7.14 | Equity trading risk management report (VaR limits-settings, case 1)        | 129 |
| 7.15 | Equity trading risk management report (VaR limits-settings, case 2)        | 130 |
| 7.16 | Equity trading risk management report (VaR limits-settings, case 3)        | 131 |
| 7.17 | Equity trading risk management report (VaR limits-settings, case 4)        | 132 |
| 8.1  | A brief summary of current market-risk measures                            | 138 |
| 8.2  | An overview of the three main VaR methodologies                            | 140 |

|      |  |     |
|------|--|-----|
| 8.3  | A summary of the key strengths and weaknesses of three VaR methodologies | 141 |
| 8.4  | Responses to question 1  | 143 |
| 8.5  | Responses to question 2  | 143 |
| 8.6  | Responses to question 3  | 144 |
| 8.7  | Responses to question 4  | 145 |
| 8.8  | Responses to question 5  | 146 |
| 8.9  | Responses to question 6  | 146 |
| 8.10 | Statistical results of questions 7 and 8                                 | 147 |
| 8.11 | Statistical results of Q9  | 149 |
| 8.12 | Responses to question 10   | 150 |
| 8.13 | Responses to question 11   | 151 |
| 8.14 | Responses to question 12   | 151 |
| 8.15 | Responses to question 13   | 152 |
| 8.16 | Responses to question 14   | 152 |
| 8.17 | Responses to question 15   | 153 |
| 8.18 | Responses to question 16   | 153 |
