Abstract	ix
Foreword	xi
Introduction	1
1 Boundedness of operators on characteristic functions and the Hardy operator	5
1.1 Introduction	5
1.2 Boundedness on characteristic functions	6
1.3 The Hardy operator and the classes B_p	15
2 Lorentz spaces	25
2.1 Introduction	25
2.2 $\Lambda_X^p(w)$ spaces	26
2.3 Quasi-normed Lorentz spaces	34
2.3.1 Absolutely continuous norm	35
2.3.2 Density of the simple functions and L^∞	40
2.4 Duality	43
2.5 Normability	73
2.6 Interpolation of operators	80
3 The Hardy-Littlewood maximal operator in weighted Lorentz spaces	89
3.1 Introduction	89
3.2 Some general results	91
3.3 Strong-type boundedness in the diagonal case	97
3.4 Weak-type inequality	105

3.5 Applications	120
Bibliography	123
Index	127
