<b>I</b>	<b>Introduction</b>	<b>1</b>
<b>1</b>	<b>A System for the Extraction of Linguistic Information</b>	<b>3</b>
1.1	SILVA — Signalling Information gained from Linguistically Valuable Analyses . . . . .	3
1.1.1	Ambiguity in Parsing . . . . .	4
1.1.2	Syntactic Underspecification . . . . .	5
1.2	SILVA's Architecture . . . . .	8
<b>2</b>	<b>The Structure of the Thesis</b>	<b>13</b>
<b>II</b>	<b>The Quantifying Noun Group</b>	<b>17</b>
<b>3</b>	<b>The Quantifying Noun Group in German</b>	<b>19</b>
3.1	Structure of this Part . . . . .	20
3.2	Quantifying Noun Groups in German - Automatic Analysis and Annotation . . . . .	21
3.2.1	Structure of the Quantifying Noun Group in German . . .	21
3.2.2	Automatic Analysis and Annotation - Two Sources of Ambiguity . . . . .	21
<b>4</b>	<b>The Mass Count Distinction</b>	<b>29</b>
4.1	A Noun Classification according to Two Fundamental Classification Decisions . . . . .	30
4.1.1	The Mass-Count Distinction: Syntactic and Semantic Aspects . . . . .	32
4.1.1.1	Syntactic Aspects of the Mass-Count Distinction .	32
4.1.1.2	Semantic Aspects of the Mass-Count Distinction .	34
4.1.2	The Distributive Behaviour of Mass Nouns and Countable Nouns . . . . .	37
4.2	The Noun Classification and its Impacts on the (Automatic) Processing . . . . .	39

## Contents

<b>5</b>	<b>Indications of Quantity - Variants of the Quantitative Specification</b>	<b>41</b>
5.1	A Semantically Inspired Classification of German Quantifying Noun Groups . . . . .	42
5.2	Numeral Noun Constructions and Quantum Noun Constructions . . . . .	46
5.2.1	Numeral Noun Constructions . . . . .	46
5.2.2	Quantum Noun Constructions . . . . .	46
5.2.3	Numeral Noun and Quantum Noun Constructions in contrast to Measure and Count Constructions . . . . .	47
5.3	Measure Constructions . . . . .	48
5.3.1	Theory of Measurement . . . . .	48
5.3.2	Linguistic Approaches to Measure Constructions . . . . .	49
5.3.3	Automatic Processing of Measure Constructions in SILVA . . . . .	50
5.3.3.1	Ambiguities . . . . .	51
5.3.3.2	Measure Arguments of (Dimensional) Adjectives . . . . .	53
5.3.3.3	The Measure Object: Explicit and Implicit Reference to Dimensions . . . . .	61
5.3.4	Abstract, concrete, and relative measuring unit constructions . . . . .	62
5.3.4.1	Abstract measuring unit constructions . . . . .	63
5.3.4.2	Concrete measuring unit constructions . . . . .	63
5.3.4.3	Relative measuring unit constructions . . . . .	63
5.4	Count Constructions . . . . .	64
5.4.1	Count Noun Constructions . . . . .	65
5.4.1.1	Numeral Classifier Constructions . . . . .	65
5.4.1.2	Shape Noun Constructions . . . . .	67
5.4.1.3	Container Noun Constructions . . . . .	71
5.4.1.4	Singulative Constructions . . . . .	79
5.4.2	Sort Noun Constructions . . . . .	81
5.4.3	Collective Noun Constructions . . . . .	82
5.4.3.1	Configuration Constructions . . . . .	84
5.4.3.2	Group Collective Constructions . . . . .	84
5.4.3.3	Automatic Processing of Collective Noun Constructions . . . . .	84
<b>6</b>	<b>(Prenominal) Modification of the Quantifying Noun Group</b>	<b>87</b>
6.1	Semantic Constraints on Prenominal Adjective Order . . . . .	87
6.1.1	The First Level of Organization - Three "Modification Zones" . . . . .	88
6.1.2	The Second Level of Organization - Several Subclasses . . . . .	89
6.1.3	The Affiliation to a Modification Zone and its Repercussions on Adjective Order . . . . .	90
6.2	Observations in terms of Modification of the Quantifying Noun Group . . . . .	91
6.2.1	The Functions of Adjectives in Quantifying Noun Groups . . . . .	92

6.2.2	Modification Behaviour of Restrictive Adjectives . . . . .	94
6.2.2.1	Descriptive Adjectives: The Antonym Pair <i>dick/dünn</i>	95
6.2.2.2	Classifying Adjectives: The Color Adjectives . . . . .	96
<b>7</b>	<b>Contributions to the Field of Work</b>	<b>99</b>
7.1	Contributions to the Theoretical Aspects of Quantifying Noun Groups . . . . .	99
7.2	Contributions to the Automatic Processing of Quantifying Noun Groups . . . . .	101
7.3	Important Aspects with respect to the Extraction Task . . . . .	101
7.3.1	Feature Annotation . . . . .	101
7.3.2	Two Peculiarities of Measure and Count Constructions . . . . .	102
7.3.2.1	Additive and Non-Additive Measure Functions . . . . .	102
7.3.2.2	Container Noun Constructions . . . . .	104
7.3.3	Modifications within the Quantifying Noun Group . . . . .	104
<b>III</b>	<b>Underspecified Representations</b>	<b>107</b>
<b>8</b>	<b>Underspecified Representations for Quantifying Noun Groups</b>	<b>109</b>
<b>9</b>	<b>Incremental Specification via Underspecified Representations</b>	<b>113</b>
9.1	The Specification Process described by SILVA . . . . .	113
9.1.1	The Parsing Module and the Ambiguity-Handling Module in the Specification Process . . . . .	114
9.1.1.1	The parsing module . . . . .	114
9.1.1.2	The Ambiguity-Handling Module . . . . .	115
9.1.2	The Reconstruction Module in the Specification Process . . . . .	116
9.2	Underspecification . . . . .	116
9.2.1	Underspecification in Syntax . . . . .	117
9.2.2	Underspecified Representations and their Stepwise Trans- formation . . . . .	118
9.2.2.1	SILVA's Deterministic Specification Process . . . . .	119
9.2.2.2	Underspecification versus Packing . . . . .	119
9.3	(Explicitly) Underspecified Representations in SILVA . . . . .	119
9.3.1	Implicitly and Explicitly Underspecified Representations . . . . .	120
9.3.1.1	The Implicitly Underspecified Representation . . . . .	120
9.3.1.2	The Explicitly Underspecified Representation . . . . .	121
9.3.2	Cases of Use of Underspecification with Quantifying Noun Groups . . . . .	121

## Contents

<b>10 The Target Readings and their Demands on the Parsing Output</b>	<b>123</b>
10.1 The Set of Target Readings	123
10.1.1 The Readings $r_{2-NP}$ and $r_{quanNG}$	125
10.1.2 The Readings $r_{ams}$ , $r_{CARD}$ , and $r_{pp-ams}$	126
10.1.2.1 $r_{ams}$ and $r_{CARD}$	126
10.1.2.2 $r_{pp-ams}$	128
10.2 <i>Necessary</i> and <i>Sufficient</i> Conditions	129
10.2.1 <i>Necessary</i> Conditions	129
10.2.1.1 <i>Necessary</i> Conditions in terms of Quantifying Noun Groups	129
10.2.1.2 Four Relevant Initial Structure Sequences	131
10.2.1.3 Surface Information as <i>Necessary</i> , but not <i>Sufficient</i> Condition	131
10.2.2 <i>Sufficient</i> Conditions	133
10.2.2.1 Lexico-Semantic Characteristics	133
10.2.2.2 The Triggers for Annotating Context-Dependent Lexico-Semantic Characteristics	135
<b>11 The Level of Representation</b>	<b>137</b>
11.1 The Local Disambiguation Task - “Specificity” and “Informativity”	138
11.2 Feature Structures as Means for Representation	139
11.2.1 Feature Structures in Information-Based Linguistics	140
11.2.2 The Notion of Subsumption	142
11.2.2.1 The Extension Relation $\leq$	142
11.2.2.2 The Subsumption Relations that obtain for SILVA’s Underspecified and Fully Specified Representations	143
11.3 Initial and Target Feature Structures of the Ambiguous Structure Sequence	144
11.3.1 The (Implicitly Underspecified) Initial Representation	145
11.3.2 The (Fully Specified) Target Representations	149
11.4 The Explicitly Underspecified Representation	157
11.4.1 A Working Example	157
11.4.1.1 The Instantiated Initial Representation	158
11.4.1.2 The Instantiated Target Representations	159
11.4.2 Test for Unifiability	160
11.4.2.1 Conditions for the Unifiability of $FS_{impl}$ and an instance of $FS_{full}$	161
11.4.2.2 Result of the Unification	162
11.4.3 Merging all Unifiable Representations into one Explicitly Underspecified Representation	163

11.4.3.1	The Fragmentary Character of the Analyses assembled in the Explicitly Underspecified Representation . . . . .	164
11.4.3.2	The Explicitly Underspecified Representation of the Working Example . . . . .	164
<b>12</b>	<b>The Reconstruction Module</b>	<b>167</b>
12.1	The Reconstruction Process . . . . .	167
12.1.1	The Specification of Target Readings . . . . .	167
12.1.2	Constraints on the Representations of Constituents assembled in an Explicitly Underspecified Representation . . . . .	169
12.1.3	The Relations holding between each two Constituents . . . . .	170
12.1.4	The Deletion Rules . . . . .	170
12.2	The Reconstruction of the Working Example . . . . .	174
12.2.1	The Derivation of all possible Constituents . . . . .	175
12.2.2	Applying Constraints on the derived Constituents . . . . .	176
12.2.3	Determining the Relations holding between each two Constituents . . . . .	177
12.2.4	Computing Unordered Trees . . . . .	177
12.2.5	The Hierarchical Representations of the Target Readings . . . . .	179
12.2.6	Applying the Deletion Rules and Determining the locally valid Target Readings . . . . .	182
<b>13</b>	<b>Remarks on the Generalisability of the proposed Approach</b>	<b>189</b>
<b>IV</b>	<b>Conclusions</b>	<b>193</b>
<b>14</b>	<b>Summary and Conclusions</b>	<b>195</b>
14.1	The Quantifying Noun Group . . . . .	195
14.2	Underspecified Representations . . . . .	198
14.3	The Interplay between Theoretical Linguistics and Computational Linguistics . . . . .	200
	<b>Zusammenfassung</b>	<b>203</b>
<b>A</b>	<b>Measuring Units</b>	<b>215</b>
A.1	Abstract Measuring Units . . . . .	215
A.1.1	Two Classes of SI Units . . . . .	215
A.1.1.1	SI Base Units . . . . .	216
A.1.1.2	SI Derived Units . . . . .	216
A.1.1.3	Decimal Multiples and Submultiples of SI Units . . . . .	216
A.1.2	Units outside the SI . . . . .	218
A.1.3	The writing of SI unit names and symbols . . . . .	220

A.1.3.1	SI unit symbols . . . . .	220
A.1.3.2	Algebra of SI unit symbols . . . . .	220
A.1.3.3	Rules for using SI prefixes . . . . .	220
A.1.4	Abstract Measuring Units used in SILVA . . . . .	221
A.1.4.1	Dimensional Adjectives used in SILVA and “their” Scales . . . . .	221
A.1.4.2	Additional Dimensions and Measuring Units . . . . .	225
A.2	Concrete Measuring Units . . . . .	225
A.2.1	Container Nouns . . . . .	226
A.2.2	Action Nouns . . . . .	226
<b>B</b>	<b>Counting Units</b>	<b>227</b>
B.1	Shape Nouns . . . . .	227
B.2	Container Nouns . . . . .	228
B.3	Singulatives . . . . .	230
B.4	Collective Nouns . . . . .	230
B.4.1	Configuration Collectives . . . . .	230
B.4.2	Group Collectives . . . . .	231
<b>Bibliography</b>		<b>232</b>

# List of Tables

5.1	Classification of German Quantifying Noun Groups . . . . .	44
5.2	Scales, Dimensions, Dimensional Adjectives, and Measuring Units . . . . .	57
6.1	Typical Adjective Order in English (and German) noun Phrases (adapted from Bache) . . . . .	89
6.2	<i>dick</i> and <i>dünn</i> combined with countable nouns . . . . .	95
6.3	<i>dick</i> and <i>dünn</i> preceding the quantity noun and the quality noun, respectively . . . . .	95
10.1	The Parsing Output and the Authorised Target Reading(s) . . . . .	132
12.1	Relations holding between each two Constituents . . . . .	177
A.1	SI base units . . . . .	216
A.2	SI derived units with special names . . . . .	217
A.3	SI prefixes . . . . .	218
A.4	Non-SI units which are in continuous everyday use . . . . .	219
A.5	Non-SI units: Commercial, legal, and specialised scientific units . . . . .	219
A.6	Dimensional Adjectives and “their” Scales . . . . .	222
A.7	SILVA’s Scales and Measuring Units . . . . .	223
A.8	SILVA’s additional Dimensions and Measuring Units . . . . .	224
B.1	SILVA’s “unbounded” Shape Nouns . . . . .	227
B.2	SILVA’s “bounded” Shape Nouns together with “their” Quality Nouns . . . . .	228
B.3	SILVA’s Container Nouns, (1/3) . . . . .	228
B.4	SILVA’s Container Nouns, (2/3) . . . . .	229
B.5	SILVA’s Container Nouns, (3/3) . . . . .	230
B.6	SILVA’s “unbounded” Singulatives . . . . .	230
B.7	SILVA’s “bounded” Singulatives together with “their” Quality Nouns . . . . .	230
B.8	SILVA’s Configuration Collectives . . . . .	231
B.9	SILVA’s Group Collectives . . . . .	231

# List of Figures

3.1	Structure of a Quantifying Noun Group in German . . . . .	21
3.2	Correct Analysis for the bold typed Noun Phrase in Sentence 3.1 . . . . .	22
3.3	Correct Analysis for the bold typed Noun Phrase in Sentence 3.2 . . . . .	22
3.4	Indication-of-measurement-reading (cf. sentence 3.5) . . . . .	25
3.5	Measure-argument-of-adjective-reading (cf. sentence 3.6) . . . . .	25
4.1	(Semantic) Noun Classification . . . . .	33
4.2	Lattice Structure . . . . .	36
5.1	Quantifying-Noun-Group-Analysis for Sentence 5.4 . . . . .	52
5.2	Elliptic-Quantifying-Noun-Group-Analysis for Sentence 5.4 . . . . .	52
5.3	Analysis for Sentence 5.5 by analogy with Figure 5.1 . . . . .	54
5.4	Measure-Argument-of-Adjective-Reading of Sentence 5.5 . . . . .	54
5.5	Intended Analysis for Sentence 5.6 . . . . .	55
5.6	Shape-Noun-Reading of <i>Tafel</i> in Sentence 5.26 . . . . .	69
5.7	SILVA's Analysis of Sentence 5.26 . . . . .	70
5.8	Measure-Reading of Sentence 5.37 . . . . .	78
5.9	Concrete-Object-Reading of Sentence 5.37 . . . . .	78
7.1	SILVA's Annotation for Sentence 7.1 . . . . .	102
11.1	The (Implicitly Underspecified) Initial Representation . . . . .	148
11.2	The Target Representation $FS_{2-NP}$ of $r_{2-NP}$ . . . . .	151
11.3	The Target Representation $FS_{quanNG}$ of $r_{quanNG}$ . . . . .	153
11.4	The Target Representation $FS_{ams}$ of $r_{ams}$ . . . . .	154
11.5	The Target Representation $FS_{CARD}$ of $r_{CARD}$ . . . . .	155
11.6	The Target Representation $FS_{pp-ams}$ of $r_{pp-ams}$ . . . . .	156
13.1	Feature Structure describing the Local Context . . . . .	192
