|-------------------------------------------------------------------------------------------------------------------------------------|-----|
| CHAPTER I. NONTRIVIALITY OF SOBOLEV SPACES OF INFINITE ORDER | 11 |
| Introduction | 11 |
| § 1 Criterion for nontriviality of the spaces $\mathring{W}^\infty\{a_\alpha, p_\alpha\}$ in the case of a bounded domain | 12 |
| § 2 Criterion for nontriviality of the spaces $W^\infty\{a_\alpha, p_\alpha\}$ in the case of full Euclidean space | 18 |
| § 3 Criterion for nontriviality of the spaces $W^\infty\{a_\alpha, p_\alpha\}$ in the case of the torus. | 25 |
| § 4 Criterion for nontriviality of the spaces $\mathring{W}^\infty\{a_{n\alpha}, p\}$ in the case of a strip. | 28 |
| § 5 Further investigations | 37 |
| CHAPTER II. ELLIPTIC BOUNDARY VALUE PROBLEMS OF INFINITE ORDER. | 39 |
| Introduction | 39 |
| § 1 Dirichlet problem of infinite order (the main example) | 41 |
| § 2 Dirichlet problem of infinite order (the general case) | 47 |
| § 3 Uniform correctness of a family of elliptic problems | 51 |
| § 4 Linear problems (L_2 -theory). | 63 |
| § 5 A stochastic problem of the theory of elasticity | 88 |
| CHAPTER III. TRACE THEORY AND INHOMOGENEOUS DIRICHLET PROBLEM OF INFINITE ORDER. | 92 |
| Introduction | 92 |
| § 1 Trace criterion. | 93 |
| § 2 Sufficient algebraic conditions in the case of the strip | 95 |
| § 3 Inhomogeneous Dirichlet problem of infinite order. | 105 |

| | |
|---------------------------------------------------------------------------------------------------|-----|
| CHAPTER IV. SPACES $W^{\infty}\{a_{\alpha}, p\}$ AS LIMITS OF BANACH SPACES . | |
| EXAMPLES | 107 |
| Introduction | 107 |
| § 1 Some limits of monotone sequences of Banach spaces. | |
| Examples | 108 |
| § 2 Some properties of $W^{\infty}\{a_{\alpha}, p\}$ and $W^{-\infty}\{a_{\alpha}, p\}$ | 115 |
| CHAPTER V. IMBEDDING THEORY | 123 |
| Introduction | 123 |
| § 1 Imbedding criterion for limits of Banach spaces. | 124 |
| § 2 Applications to the spaces $W^{\infty}\{a_{\alpha}, p\}$ | 130 |
| § 3 Sufficient algebraic conditions. | 132 |
| CHAPTER VI. NONSTATIONARY BOUNDARY VALUE PROBLEMS OF INFINITE ORDER | 141 |
| Introduction | 141 |
| § 1 First boundary value problem for parabolic equations of infinite order. | 141 |
| § 2 Mixed problems for hyperbolic equations of infinite order. | 146 |
| § 3 Mixed problems for the nonlinear Schrödinger equation of infinite order. | 149 |
| APPENDIX. | 152 |
| BIBLIOGRAPHY. | 156 |
