## Preface

## GENERALIZATIONS OF ANALYTIC FUNCTION THEORY

- |   |   |    |
|---|---|----|
| 1 | J. B. Bednar and C. English   | 1  |
|   | On the convolution product in discrete function theory                        |    |
| 2 | H. Begehr   | 11 |
|   | Das Schwarzsche Lemma und verwandte Sätze für pseudoanalytische Funktionen    |    |
| 3 | F. Brackx   | 22 |
|   | On (k)-monogenic functions of a quaternion variable                           |    |
| 4 | K. Habetha  | 45 |
|   | On zeros of elliptic systems of first order in the plane                      |    |
| 5 | G. Jank and K.-J. Wirths  | 63 |
|   | Generalized maximum principles in certain classes of pseudoanalytic functions |    |
| 6 | S. Ruscheweyh   | 68 |
|   | Hardy spaces of $\lambda$ -harmonic functions                                 |    |

## INTEGRAL OPERATORS

- |   |   |    |
|---|---|----|
| 7 | K.W. Bauer and H. Florian                 | 85 |
|   | Bergman-operatoren mit Polynomerzeugenden |    |

8	J. W. Dettman	94
	Related semi-groups and the abstract Hilbert transform	
9	R. V. Duduchava	109
	On singular integral operators on piecewise smooth lines	
10	E. G. Gordadze and B. V. Khvedelidze	132
	On singular integral operators	
11	G. Jank	158
	On integro-differential-operators for partial differential equations	
12	T. L. McCoy	172
	An application of the Poisson transformation to harmonic functions with analytic coefficients	
13	L. G. Mikhailov	189
	On some integral equations with homogeneous kernels	
BOUNDARY VALUE PROBLEMS		
14	T. A. Chanturia	196
	On singular solutions of strongly nonlinear systems of ordinary differential equations	
15	S. Christiansen	205
	On Kupradze's functional equations for plane harmonic problems	
16	R. Huss, H. Kagiwada and R. Kalaba	244
	Reduction of a family of nonlinear boundary value problems to a Cauchy system	
17	I. T. Kiguradze and N. R. Lezhava	259
	On a nonlinear boundary value problem	

18	M. Lowengrub	277
	Systems of Abel type integral equations	
19	P. Ramankutty	297
	The generalized axially symmetric Helmholtz equation
