

CONTENTS

PREFACE	1
INTRODUCTION	1
CHAPTER I. FUNDAMENTAL MATRICES OF THE SOLUTIONS OF LINEAR PARABOLIC EQUATIONS	5
Introductory Section. On Fundamental Solutions of Second- Order Parabolic Equations	5
I.1. Some Lemmas	32
I.2. Fundamental Matrices of Solutions of Those Systems Whose Coefficients Depend on Time t	40
I.3. Fundamental Matrices of Solutions of Linear Parabolic Systems	61
I.4. Estimates for Green's Matrix in a Half-Space (with Respect to t)	115
I.5. The Fundamental Matrices of Solutions of Linear Systems with Increasing Coefficients	129
I.6. On the Behaviour of Solutions of Parabolic Systems in the Neighbourhood of a Singular Point	138
I.7. Relation Between the Fundamental Matrices of Solutions of Parabolic and Elliptic Systems	148
I.8. A Priori Estimates of the Fundamental Solution of a Linear Second-Order Parabolic Equation	158
I.9. Study of the Fundamental Matrix of Solutions in the Complex Domain	171
CHAPTER II. SOME PROPERTIES OF THE SOLUTIONS OF PARA- BOLIC SYSTEMS	181
II.1. Interior Estimates for the Solutions of Parabolic Systems .	181
II.2. Hypo-Elliptic Case. The Analyticity of Solutions with Res- pect to Space Co-ordinates	218
II.3. The Liouville Theorems for Solutions of Parabolic Systems	225
CHAPTER III. THE CAUCHY PROBLEM	236
III.1. Correctness of the Cauchy Problem for Linear and Nearly Linear Systems in the Class of Rapidly-Increasing Functions	236

CONTENTS

III.2. The Uniqueness of a Solution of the Cauchy Problem. The Necessary and Sufficient Conditions the Uniqueness for Constant-Coefficient Systems	263
III.3. The Cauchy Problem for Some Systems With Increasing Coefficients	285
III.4. Local Solvability of the Cauchy Problem for Arbitrary Non-Linear Parabolic Systems	295
III.5. Continuation of Solutions of the Cauchy Problem for Non-Linear and Quasi-Linear Parabolic Equations	313
III.6. On Non-Local Theorems for Second-Order Equations . . .	325
III.7. On the Stability of a Solution of the Cauchy Problem in the Sense of Lyapunov	342
III.8. On the Stabilization of a Solution of the Cauchy Problem for Parabolic Systems	348
CHAPTER IV. MIXED PROBLEM FOR LINEAR PARABOLIC SYSTEMS	365
IV.1. A Mixed Problem for a Half-Space	365
IV.2. Mixed Problem for an Arbitrary Cylindrical Domain for Systems with Variable Coefficients	409
IV.3. The Case of a Single Equation. Problem with a Directional Derivative for Second-Order Equations	436
APPENDIX I. ON VARIOUS DEFINITIONS OF PARABOLIC SYSTEMS OF PARTIAL DIFFERENTIAL EQUATIONS	444
APPENDIX II. ON A CERTAIN CLASS OF SYSTEMS WITH POSITIVE GENUS, WHICH ARE CORRECT IN THE SENSE OF PETROVSKIY	454
BIBLIOGRAPHY	460
