

TABLE OF CONTENTS

Preface	ix
PART I: DESIGN AND DEVELOPMENT APPROACHES	
1. Principles and Methods of Development Research <i>Jan van den Akker</i>	1
2. Educational Design and Development: An Overview of Paradigms <i>Irene Visscher-Voerman, Kent Gustafson and Tjeerd Plomp</i>	15
3. Systems Thinking in Instructional Design <i>Gordon Rowland and Ann-Marie Adams</i>	29
4. Educational Design and Development: A Study of Dutch Design Practices <i>Irene Visscher-Voerman</i>	45
5. A Relational Approach to Curriculum Design <i>Joseph Kessels</i>	59
6. Walker's Deliberative Approach in a Small-scale Project: The SPIN-case <i>Ellen van den Berg</i>	71
7. Design and Development of Third Generation Distance Learning Materials: From an Industrial Second Generation Approach Towards Realizing Third Generation Distance Education <i>Paul Kirschner, Martin Valcke and Dominique Sluijsmans</i>	81
8. The Design and Prototyping of Digital Learning Material: Some New Perspectives <i>Jef Moonen</i>	95
9. Supporting Instructional Design with an Information System <i>Renate Limbach, Ton de Jong, Jules Pieters and Gordon Rowland</i>	113

10. Prototyping to Reach Product Quality	125
<i>Nienke Nieveen</i>	
11. The Potential of Formative Evaluation in Program Design Models	137
<i>Ralf Maslowski and Adrie Visscher</i>	
12. Instructional Design: A Conceptual Parallel Processor for Navigating Learning Space	145
<i>Robert Maribe Branch</i>	
 PART II: COMPUTER-BASED TOOLS FOR EDUCATIONAL DESIGN AND DEVELOPMENT 	
13. Characteristics of Computer-based Tools for Education and Training Development: An Introduction	155
<i>Nienke Nieveen and Kent Gustafson</i>	
14. The Guided Approach to Instructional Design Advising (GAIDA): A Case-based Approach to Developing Instructional Design Expertise	175
<i>Dennis Gettman, Theresa McNelly and Daniel Muraida</i>	
15. An EPSS for Instructional Design: NCR's Quality Information Products Process	183
<i>Thomas Jury and Thomas Reeves</i>	
16. The PLATO® Courseware Development Environment	195
<i>Frank Preese and Wellesley Foshay</i>	
17. Visual Support for Authoring	205
<i>Rob Wright, Barry Harper and John Hedberg</i>	
18. Cognitive Tools to Support the Instructional Design of Simulation-based Discovery Learning Environments: The SIMQUEST Authoring System	215
<i>Ton de Jong, Renate Limbach, Mark Gellevij, Michiel Kuyper, Jules Pieters and Wouter van Joolingen</i>	

19. CASCADE - SEA. Computer Assisted Curriculum Analysis, Design and Evaluation for Science Education in Africa <i>Susan McKenney</i>	225
20. The TeleTOP Decision Support Tool (DST) <i>Betty Collis and Wim de Boer</i>	235
21. Enabling Technologies to Design, Produce and Exploit Flexible, Electronic Learning Materials <i>Martin Valcke, Paul Kirschner and Evelijn Bos</i>	249
22. The IDXelerator™: Learning-Centered Instructional Design <i>David Merrill and Bennet Thompson</i>	265
23. Intelligent Support for Instructional Development: Approaches and Limits <i>Michael Spector</i>	279
Information about Authors	291
