Introduction	1
I Center Manifolds, Normal Forms, and Bifurcations of Vector Fields near Critical Points	4
I.1 Unperturbed Vector Fields	4
I.1.1 Linearization	5
I.1.2 Center Manifold Theorem	7
I.1.3 Normal Form Theorem	12
I.1.4 Symmetries	22
I.1.5 Additional Examples and Exercises	25
Bibliographical Notes	31
I.2 Perturbed Vector Fields	31
I.2.1 Center Manifold and Normal Form Theorem for Perturbed Vector Fields	32
I.2.2 Saddle-Node and Pitchfork Bifurcation	37
I.2.3 Hopf Bifurcation	41
I.2.4 Hopf Bifurcation with $SO(2)$ -Symmetry	46

I.2.5	Steady Bifurcation with $O(2)$ -Symmetry	47
I.2.6	Hopf Bifurcation with $O(2)$ -Symmetry	49
I.2.7	Exercises with Reversible Vector Fields	58
	Appendix to Chapter I. Three Problems	62
	Problem 1. The Lorenz System	62
	Problem 2. The Van der Pol System	64
	Problem 3. The Swift-Hohenberg System	65
	Answers to Problem 1	70
	Answers to Problem 2	76
	Answers to Problem 3	80

II Couette-Taylor Problem 88

II.1	Formulation of the Problem	88
	II.1.1 Basic Equations	90
	II.1.2 Symmetries	90
II.2	Couette Flow	91
II.3	Bifurcations from Couette Flow	92
	II.3.1 Reformulation of the Problem	92
	II.3.2 Axial Periodicity Condition	94
	II.3.3 Stability of Couette Flow	95
	II.3.4 Steady Bifurcation from Couette Flow: Taylor Vortex Flow . .	96
	II.3.5 Hopf Bifurcation from Couette Flow: Spirals and Ribbons . .	99
II.4	Bifurcations from Taylor Vortex Flow	101

II.4.1	Center Manifold Reduction for Group Orbits of Steady Solutions	101
II.4.2	Steady Bifurcation from Taylor Vortices	103
II.4.3	Hopf Bifurcation from Taylor Vortices: Twisted Vortices, Wavy Vortices, Vortices with Wavy Inflow and Outflow Boundaries	107
III	Center Manifolds, Normal Forms, and Bifurcations of Vector Fields near Closed Orbits	111
III.1	Preliminaries. Adaptation of Floquet Theory	112
III.2	Unperturbed Case	123
III.2.1	Normal Form Theorem I	124
III.2.2	Normal Form Theorem II	133
III.2.3	Normal Form Theorem III	137
III.2.4	Additional Symmetries	140
III.3	Perturbed Case	143
III.3.1	Normal Form Theorems for the Perturbed Case	143
III.3.2	Saddle-Node Bifurcation from Periodic Solutions	144
III.3.3	Pitchfork Bifurcation from Periodic Solutions	146
III.3.4	Hopf Bifurcation from Periodic Solutions (Part One)	148
III.3.5	Period Doubling Bifurcation	149
III.3.6	Hopf Bifurcation from Periodic Solutions (Part Two). Arnold's Tongues	151
