

TABLE OF CONTENTS

PART I: PRELIMINARIES AND DEFINITIONS

Chapter 1.	INTRODUCTION	3
Chapter 2.	PRELIMINARIES	
	2.1 <i>Model structure</i>	6
	2.2 <i>System</i>	12
	2.3 <i>Experimental condition</i>	18
	2.4 <i>Some notational conventions</i>	20
	2.5 <i>Remarks and bibliographical notes</i>	21
Chapter 3.	BASIC AND EXTENDED IV ALGORITHMS	
	3.1 <i>Basic IV variants</i>	23
	3.2 <i>Extended IV variants</i>	31
	3.3 <i>Bootstrap IV variants</i>	37
	3.4 <i>Remarks and bibliographical notes</i>	38

PART II: ANALYSIS

Chapter 4.	CONSISTENCY	
	4.1 <i>General considerations</i>	47
	4.2 <i>Analysis of IV variants for scalar systems</i>	55
	4.3 <i>Analysis of IV variants for multivariable systems</i>	60
	4.4 <i>Convergence analysis of bootstrap IV variants</i>	67
	4.5 <i>Remarks and bibliographical notes</i>	74
Chapter 5.	ACCURACY	
	5.1 <i>Asymptotic distribution of IV estimators</i>	75
	5.2 <i>Asymptotic distribution of bootstrap IV estimators</i>	85
	5.3 <i>Remarks and bibliographical notes</i>	88
Chapter 6.	OPTIMAL IV ESTIMATORS	
	6.1 <i>Statement of optimality problems</i>	89
	6.2 <i>Some optimization examples</i>	93
	6.3 <i>Optimal IV estimators and approximate implementations</i>	96

6.4	<i>Analysis of the approximate implementation of optimal IV estimators</i>	106
6.5	<i>Remarks and bibliographical notes</i>	119
Chapter 7. OPTIMAL INPUT DESIGN		
7.1	<i>Statement of the problem</i>	120
7.2	<i>Input parameterization</i>	122
7.3	<i>Covariance realization</i>	125
7.4	<i>Algorithmic aspects</i>	132
7.5	<i>Remarks and bibliographical notes</i>	141

PART III: PRACTICAL ASPECTS AND CASE STUDIES

Chapter 8. SUMMARY OF THE ANALYSIS AND HINTS FOR THE USER		
8.1	<i>Basic facts on IV estimation</i>	145
8.2	<i>Hints for choosing the IV variant</i>	150
8.3	<i>Hints for input design</i>	156
8.4	<i>Hints for model structure selection</i>	157
Chapter 9. CASE STUDIES		
9.1	<i>General aspects</i>	165
9.2	<i>A drum drier</i>	168
9.3	<i>An economic process</i>	172
9.4	<i>A gas furnace</i>	175
9.5	<i>A turbo-alternator</i>	181

APPENDICES

Appendix 1.	PERSISTENTLY EXCITING SIGNALS	189
Appendix 2.	SOME RESULTS ON POLYNOMIALS AND ANALYTIC FUNCTIONS	195
Appendix 3.	SOME MATRIX RESULTS	200
Appendix 4.	SOME PROBABILITY RESULTS	213
Appendix 5.	THE LEVINSON-DURBIN ALGORITHM	216
Appendix 6.	SOME TERMINOLOGY ASSOCIATED WITH RATIONAL MATRICES	225
